

Title, Contents, Indices to Vol. XII.

BULLETIN OF ENTOMOLOGICAL RESEARCH

ISSUED BY THE IMPERIAL
BUREAU OF ENTOMOLOGY.

EDITOR: THE DIRECTOR.

LONDON :
THE IMPERIAL BUREAU OF ENTOMOLOGY,
41, QUEEN'S GATE, S.W.7.
1921-1922.

ALL RIGHTS RESERVED.

GENERAL INDEX.

- abdominalis*, *Cephenomyia*.
Abies firma, Coccid on, in Japan, 217.
Acacia confusa, Coccid on, in Japan, 212.
Acanthoconops, new subgenus of *Lep-
toconops*, 3, 24.
" *albiventris*, anatomy of,
7; description of, 26.
" *spinosifrons*, sp. n.,
anatomy of, 5, 6, 7,
9, 19; description of,
24-26.
Achaea janata, new Braconid parasite
of, in India, 130, 132.
Achatina fulica, destructive to cotton
in Mauritius, 182.
aconitus, *Anopheles*.
Acrostichum, *Ceroplastes rubens* on, in
Seychelles, 127.
actaeon, *Hypoderma*.
Adalia bipunctata, predacious on Aphids
in Britain, 430.
adversi, *Simulium hirsutum*.
Adoretus versutus, food-plants of, in
Mauritius, 185, 187, 190.
Aedes, key to subgenera of, 293; key
to larvae of Palaearctic species
of, 293-295.
" *aestivalis*, closely resembling *A.*
sticticus, 312.
" (*Ochlerotatus*) *albescens*, sp. n.,
in W. Siberia, 309.
" (*Stegomyia*) *albopictus*, breeding-
places of, in Far Eastern
Ports, 402-409; in Palaearctic
Region, 325.
" *aldrichi*, perhaps a synonym of
A. sticticus, 312.
" (*Ochlerotatus*) *alpinus*, in Palaearctic
Region, 309.
" (*Ochlerotatus*) *annulipes*, in
Palaearctic Region, 305;
anatomy of, 298.
Aedes argenteus (*Stegomyia fasciata*),
not found in Japanese Ports,
402, 408; in Palaearctic
Region, 325; breeding in salt
water, 30, 31.
" (*Ochlerotatus*) *ashworthi*, sp. n.,
in Australia, 75.
" *aureostriatus*, *A. japonicus* not
considered identical with, 318.
" (*Ochlerotatus*) *bancroftianus*, sp.
n., in Queensland, 74.
" *cantans* (see *A. maculatus*).
" (*Ochlerotatus*) *caspius*, influence
of drought on, in British Isles,
208; in Palaearctic Region,
299; anatomy of, 301.
" (*Ochlerotatus*) *cataphylla*, anat-
omy of, 298.
" *cataphylla* var. *rostochiensis*, in
Palaearctic Region, 310.
" (*Aedes*) *cinereus*, in Palaearctic
Region, 323; in Britain, 427.
" (*Ochlerotatus*) *communis*, in
Palaearctic Region, 314;
anatomy of, 298.
" (*Caenoccephalus*) *concolor*, 76.
" (*Stegomyia*) *cretinus*, sp. n., in
Palaearctic Region, 325.
" (*Ochlerotatus*) *crucians*, 76.
" *cyprius* (see *A. lutescens*).
" (*Stegomyia*) *dendrophila*, sp. n.,
in Gold Coast, 74.
" (*Ochlerotatus*) *detritus*, in Palaearctic
Region, 310; anatomy
of, 298.
" (*Ochlerotatus*) *diantaeus*, in Palaearctic
Region, 311.
" (*Ochlerotatus*) *dorsalis*, in Palaearctic
Region, 300; anatomy
of, 301.
" *dorsalis*, Theo. (see *A. caspius*).
" (*Finlaya*) *eatonii*, in Palaearctic
Region, 319.

- Aedes* (*Finlaya*) *echinus*, in Palaearctic Region, 320; anatomy of, 294, 320, 321.
- „ (*Ochlerotatus*) *excrucians*, in Palaearctic Region, 305; anatomy of, 298.
- „ (*Stegomyia*) *fraseri*, 74.
- „ (*Ochlerotatus*) *freyi*, sp. n., in Finland, 298, 301, 306.
- „ (*Skusea*) *funerea*, in Amboina, 76.
- „ (*Skusea*) *funerea* var. *ornata*, in Ceram, 76.
- „ *gallii* (see *Aedes pullatus jugorum*).
- „ (*Finlaya*) *geniculatus*, breeding-places of, in Britain, 206–208, 427; in Palaearctic Region, 319; anatomy of, 266, 292, 320.
- „ *grahami* (see *A. dorsalis*).
- „ *hirsuteron*, closely resembling *A. sticticus*, 312.
- „ *innuitus* (see *A. alpinus*).
- „ (*Ochlerotatus*) *intrudens*, in Palaearctic Region, 316; anatomy of, 301.
- „ (*Finlaya*) *japonicus*, breeding-places of, in Japanese Ports, 405–408; in Palaearctic Region, 318.
- „ (*Finlaya*) *koreicus*, in Palaearctic Region, 318.
- „ *lazarensis*, 309; probably a variety of *A. communis*, 315.
- „ (*Ochlerotatus*) *lepidonotus*, in Palaearctic Region, 308; anatomy of, 292, 301.
- „ (*Ochlerotatus*) *lesnei*, perhaps a synonym of *A. sticticus*, 312.
- „ (*Ochlerotatus*) *lutescens*, in Palaearctic Region, 306; anatomy of, 298.
- „ (*Ochlerotatus*) *maculatus* (*cantans*, *waterhousei*), in Palaearctic Region, 304; anatomy of, 298; influence of drought on, in British Isles, 208; breeding in salt water, 30.
- „ (*Ochlerotatus*) *mariae*, in Palaearctic Region, 303; anatomy of, 294, 301, 302.
- „ *metalepticus* (see *A. pullatus jugorum*).
- „ (*Ochlerotatus*) *nearcticus* (see *A. alpinus*).
- „ (*Ochlerotatus*) *nemorosus* (see *A. punctor* var. *meigenanus*).
- „ (*Finlaya*) *niveus*, in Palaearctic Region, 318.
- „ *obscurus* (see *A. communis*).
- „ (*Ochlerotatus*) *palmeni* (see *A. communis*).
- Aedes panayensis*, 76.
- „ (*Ochlerotatus*) *parvulus*, sp. n., in Finland, 314; anatomy of, 301.
- „ (*Skusea*) *pembaensis*, 76.
- „ *poniops*, probably a variety of *A. communis*, 315.
- „ (*Stegomyia*) *pseudonigeria*, 74.
- „ (*Ochlerotatus*) *pulchritarsis*, in Palaearctic Region, 303.
- „ *pullatus*, anatomy of, 298.
- „ (*Ochlerotatus*) *pullatus* var. *jugorum*, in Palaearctic Region, 316.
- „ (*Skusea*) *punctipes*, sp. n., in Burma, 77.
- „ (*Ochlerotatus*) *punctor*, anatomy of, 298.
- „ (*Ochlerotatus*) *punctor* var. *meigenanus* (*nemorosus*), in Britain, 208, 427; in Palaearctic Region, 313.
- „ (*Ochlerotatus*) *rusticus*, in Palaearctic Region, 308; venation of, 285.
- „ (*Ochlerotatus*) *salinellus*, in Palaearctic Region, 311; anatomy of, 298.
- „ (*Stegomyia*) *scutellaris* (see *A. albopictus*).
- „ (*Ochlerotatus*) *semicantans*, in Palaearctic Region, 305; anatomy of, 298.
- „ (*Ochlerotatus*) *sticticus*, in Palaearctic Region, 311.
- „ (*Stegomyia*) *sugens* (see *A. vittatus*).
- „ *tahoensis*, probably a variety of *A. communis*, 315.
- „ (*Ochlerotatus*) *tasmaniensis* (see *A. crucians*).
- „ (*Finlaya*) *togoi*, breeding-places of, in Japanese Ports, 405–408; in Palaearctic Region, 318.
- „ (*Ecculex*) *vexans*, in Palaearctic Region, 322.
- „ *vexans* var. *nipponii*, 322.
- „ (*Stegomyia*) *vittatus*, in Palaearctic Region, 326.
- „ (*Ochlerotatus*) *waterhousei* (see *A. maculatus*).
- „ (*Ochlerotatus*) *zambitii*, in Palaearctic Region, 303.
- aegypti*, *Culex*.
- aenea*, *Rachionotomyia*.
- aestivalis*, *Aedes*.
- Africa, Oestrids of, 245, 247; new injurious Phytophaga in, 473–475; new Simuliids in, 457–463.
- Africa, South, bionomics of *Locustana pardalina* in, 155–159.

- africanus*, *Phlebotomus minutus*.
agnoscibilis, *Tabanus*.
Agrilus foveicollis, attacking roses in Bulgaria, 353-354.
Agrilus viridis, 354.
Agromyza phaseoli, on beans in Mauritius, 186.
Agrotis ypsilon, new Braconid parasite of, in India, 129.
Agyrtes bicolor, a parasite of *Scatopse*, 231.
aitheni, *Anopheles*.
alaskaensis, *Theobaldia*.
albescens, *Aedes* (*Ochlerotatus*).
albicans, *Culicoides*.
albiceps, *Chrysomyia*.
albigenu, *Culex* (see *C. ventrilloni*).
albimanus, *Anopheles*.
albimediis, *Tabanus* (see *T. priscus*).
albina, *Musca*.
albionensis, *Orthopodomyia* (see *O. pulchripalpis*).
albiventris, *Acanthoconops*.
albo maculata, *Musca*.
albopictus, *Aedes* (*Stegomyia*).
Alcides crassus, in the Andamans, 167.
 „ *diptercarpi*, sp. n., in seeds of *Dipterocarpus tuberculatus* in India, 166.
 „ *morio*, in South India, 168.
alcocki, *Simulium*.
aldabracae, *Pseudaonidia*.
aldrichi, *Aedes*.
alecto, *Theretra*.
Alesia, 474.
Aleurodes vaporariorum (see *Asterochiton*).
 Algeria, mosquitos in, 264; *Simulium beckeri* in, 117.
algeriensis, *Anopheles*.
Allotheobaldia, subgenus of *Theobaldia*, 286, 287.
alluaudi, *Haematopota*.
Alopecurus pratensis, new Aphid on, in Britain, 430.
alpinus, *Aedes* (*Ochlerotatus*).
amanda, *Ocnerogetia*.
 America, Oestrids infesting rodents in, 249.
 America, North, representative mosquitos of, 265.
americana, *Cuterebra*.
americanus, *Leptoconops kertészii*.
Amblyomma variegatum, on cattle in Kenya Colony, 235.
amictus, *Anopheles*.
analis, *Cuterebra*.
Anastellorrhina augur (see *Calliphora*).
Anatrachyntis simplex (see *Pyroderces*).
 Andamans, *Alcides crassus* in, 167.
andersoni, *Culex*.
angustifrons, *Musca* (see *M. humilis*).
angustitarsis, *Anopheles*.
annandalei, *Chionaspis*.
annulata, *Leucomyia*; *Theobaldia*.
annulatus, *Culex*.
annulifemur, *Ochlerotatus* (see *Stegomyia periskeleta*); *Pipunculus*.
annulipalpis, *Leicostera*.
annulipes, *Aedes* (*Ochlerotatus*); *Anopheles*.
annulirostris, *Culex*; *Leucomyia* (see *Culex taylora*).
Anopheles, anatomy of larvae of, 91-97; Palaearctic species of, 267-281; keys to, 269; eggs of, 268, 276.
 „ *aconitus*, larva of, in Federated Malay States, 91, 93, 96.
 „ *aitheni*, larva of, in Federated Malay States, 91-97.
 „ *albimanus*, breeding in salt water, 31.
 „ *albotaeniatus* var. *montanus*, larva of, 93.
 „ *algeriensis*, in Palaearctic Region, 270; egg of, 268.
 „ *amictus*, sp. n., in Queensland, 71.
 „ *angustitarsis*, 116.
 „ *annulipes*, breeding in salt water, 31; *A. moluccensis* not a variety of, 71.
 „ *antennatus* (see *A. bifurcatus*).
 „ *argyropus*, possibly a form of *A. hyrcanus*, 275.
 „ *asiaticus*, larva of, 93, 96.
 „ *barianensis*, considered distinct from *A. plumbeus*, 272.
 „ *barbivostris*, larva of, in Federated Malay States, 91-96.
 „ *bifurcatus*, influence of drought on, in British Isles, 205, 206; breeding places of, in Britain, 427; in Palaearctic Region, 271; egg of, 268; larva of, 94.
 „ *chaudoyei* (see *A. multicolor*).
 „ *claviger* (see *A. maculipennis*).
 „ *cleopatrae* (see *A. multicolor*).
 „ (*Myzomyia*) *costalis*, breeding in brackish water in Africa, 29; in Palaearctic Region, 277; egg of, 268.
 „ *crucians*, breeding in salt water, 30.

- Anopheles culicifacies*, associated with *Culex mimulus*, 338.
- „ *elutus*, sp. n., in Palaearctic Region, 273; egg of, 268.
- „ *flaviceps*, sp. n., in Egypt, 69.
- „ *fuliginosus*, larva of, 93, 96.
- „ (*Myzomyia*) *hispaniola*, 30, 69; in Palaearctic Region, 279; egg of, 268.
- „ *hyrcanus*, breeding-places of, in Far Eastern ports, 402-408; larva of, in Federated Malay States, 91, 93; in Palaearctic Region, 274; in Palestine, 116; egg of, 268.
- „ *hyrcanus* var. *mesopotamiae*, 275.
- „ *hyrcanus* var. *pseudopictus*, 275.
- „ *immaculatus*, probably a form of *A. vagus*, 70.
- „ *karwari*, larva of, in Federated Malay States, 91, 95, 97.
- „ *kochi*, larva of, 93, 96.
- „ *leucosphyrus*, larva of, in Federated Malay States, 91.
- „ *leucosphyrus* var. *hackeri*, n., in Federated Malay States, 70.
- „ *lewisi* (see *A. maculipennis*).
- „ *lindesayi*, in Palaearctic Region, 273; breeding-places of, in Japanese ports, 405, 406.
- „ *ludlowi*, breeding in salt water, 30; larva of, 93.
- „ *lukisi* (see *A. algeriensis*).
- „ *maculatus*, 277; larva of, in Federated Malay States, 91-96, 97.
- „ *maculipalpis*, 277.
- „ *maculipennis*, breeding-places of, in Britain, 427; influence of drought on, in British Isles, 205, 206, 208; in Palaearctic Region, 272; breeding in brackish water, 29, 31; egg of, 268; larva of, 94; and malaria, 5; supposed variety of, in Palestine, 116 (see *A. elutus*).
- „ *malefactor*, breeding in salt water, 31.
- „ *mauritanus*, in Palaearctic Region, 275.
- „ *minimus*, associated with *Culex mimulus*, 338.
- Anopheles* (*Myzomyia*) *multicolor*, in Egypt and Palestine, 29, 116; in Palaearctic Region, 280; breeding in salt water, 29, 30; egg of, 268.
- „ *occidentalis* (see *A. maculipennis*).
- „ *palestinensis* (see *A. superpictus*).
- „ *paludis* (see *A. mauritanus*).
- „ (*Myzomyia*) *pharoensis*, in Palaearctic Region, 277.
- „ *pictus* (see *A. hyrcanus*).
- „ *plumbeus*, breeding-places of, in Britain, 427; influence of drought on, in British Isles, 206-208; in Palaearctic Region, 271; egg of, 268.
- „ *pseudopictus* (see *A. hyrcanus*).
- „ *pseudopictus flerowi*, doubt as to identity of, 267.
- „ *pseudopunctipennis*, breeding in salt water, 31.
- „ (*Myzomyia*) *pulcherrimus*, in Palaearctic Region, 277; egg of, 268.
- „ *punctibasis*, sp. n., 337; in Japan, 274; breeding-places of, in Japanese ports, 405, 406.
- „ *punctulatus*, characters of, 70.
- „ *punctulatus* var. *moluccensis*, 71.
- „ *punctulatus* var. *tessellatus*, 71.
- „ *quadrinaculatus*, breeding in salt water, 30.
- „ (*Myzomyia*) *rhodesiensis*, in Palaearctic Region, 278; egg of, 268.
- „ *rossi* var. *indefinitus* (see *A. subpictus* var. *vagus*).
- „ *sacharovii*, doubt as to identity of, 267.
- „ *selengensis* (see *A. maculipennis*).
- „ *separatus*, 274.
- „ (*Myzomyia*) *sergenti*, in Palaearctic Region, 279.
- „ *sinensis* (see *A. hyrcanus*).
- „ (*Myzomyia*) *stephensi*, in Palaearctic Region, 277; breeding in salt water, 30; egg of, 268.
- „ *subpictus* var. *vagus*, larva of, in Federated Malay States, 91, 93.

- Anopheles* (*Myzomyia*) *superpictus*, in Palaearctic Region, 278; in Palestine, 116; *Culex mimeticus* associated with, 338; anatomy of, 278.
- „ *superpictus vassilievi*, doubt as to identity of, 267.
- „ *tarsimaculatus*, breeding in salt water, 31.
- „ *tessellatus*, larva of, 93, 96.
- „ *theobaldi*, 277.
- „ *turkhuudi*, 69; breeding in salt water, 30; egg of, 268.
- „ (*Myzomyia*) *turkhuudi* var. *persicus*, n., in Palaearctic Region, 280.
- „ *umbrosus*, larva of, 93.
- „ *vagus*, *A. immaculatus* probably a form of, 70.
- „ *willmori*, 277.
- antancarus*, *Hemicospilus*.
- Antelopes, Oestrids infesting, in Africa, 246-248.
- antennatus*, *Anopheles* (see *A. bifurcatus*).
- Antestia lineaticollis*, bionomics of parasites of, in Kenya Colony, 191-201.
- antestiae*, *Hadronotus*.
- Anthomyia*, carrying eggs of *Dermatobia hominis*, 249; larva of, accidentally producing myiasis, 252.
- anthropophaga*, *Cordylobia*.
- Antonina bambusae*, food-plant of, in Formosa, 211.
- „ *crawii*, food-plant of, in Formosa, 211.
- Aonidia obtusa*, sp. n., on *Verschaffeltia splendida* in Seychelles, 126.
- aonidum*, *Chrysomphalus*.
- Aphidius*, parasite of *Aphis gossypii* in Mauritius, 182.
- Aphiochaeta ferruginea* (see *A. xanthina*).
- „ *rufipes*, causing myiasis, 240, 250; characters of larva of, 258, 260.
- „ *xanthina*, causing myiasis, 240, 250; characters of larva of, 258, 260.
- Aphis brassicae*, on cabbage in Mauritius, 186.
- „ *euonymi*, synonym of *A. rumicis*, 81.
- „ *fabae*, synonym of *A. rumicis*, 81.
- „ *gossypii*, on cucurbitaceous plants in Mauritius, 182, 186; natural enemies of, 182.
- „ *maidis*, on maize in Mauritius, 184.
- „ *papaveris*, synonym of *A. rumicis*, 81.
- Aphis rumicis*, bionomics of, in Britain, 81-89.
- apicalis*, *Culex*; *Cuterebra*.
- approximata*, *Cuterebra*.
- aprepes*, *Tabanus*.
- arctica*, *Theobaldia* (see *T. alaskaensis*).
- Areca catechu*, *Pinnaspis buxi* on, in Seychelles, 127.
- argenteus*, *Aedes* (*Stegomyia*).
- Argol, *Trigonogenius globulum* breeding in, 133.
- Argopistes oleae*, sp. n., on olives in South Africa, 474.
- „ *sexvittatus*, sp. n., on olives in South Africa, 475.
- argyricephala*, *Lucilia*.
- Argyroploue rhynchias*, on *Canavalia ensiformis* in Mauritius, 185.
- argyropus*, *Anopheles*.
- Aristolochia acuminata*, scale-insects on, in Mauritius, 182.
- Armigeres obturbans*, breeding-places of, in Japanese ports, 405, 406; in Palaearctic Region, 326.
- „ *ventralis*, in Hong Kong, 404.
- Artichoke, pests of, in Mauritius, 186.
- articulatus*, *Selenaspis*.
- ashworthi*, *Aedes* (*Ochlerotatus*).
- Asia, Eastern, Coccidae in, 211-220.
- asiaticus*, *Anopheles*.
- asiminus*, *Gastrophilus intestinalis*.
- Asparagus, new beetle attacking, in East Africa, 473.
- Aspidiotus*, 218; on *Canavalia ensiformis* in Mauritius, 185.
- „ *inusitatus*, *Odonaspis penicillata* recorded as, 219.
- „ *lataniae*, food-plant of, in Formosa, 219.
- Aspidomorpha obovata*, on sweet potato in Mauritius, 184.
- Asterochiton* (*Aleurodes*) *vaporariorum*, colour tropisms of, 355-359.
- Atheroides*, *Laingia* allied to, 429.
- atkinsoni*, *Idiocerus*.
- atrox*, *Cuterebra*.
- augur*, *Calliphora* (*Anastellorrhina*).
- Aulacaspis cinnamomi*, food-plant of, in Formosa, 212.
- „ *flacourtiiae* (see *Diaspis*).
- „ *pentagona* (see *Diaspis*).
- „ *rosae*, food-plant of, in Formosa, 213.
- „ *tegalsensis*, on sugar-cane in Formosa, 213.
- aurantii*, *Chrysomphalus*.
- aureo-argentatus*, *Oestrus*.
- aureosimile*, *Simulium*.
- aureostriatus*, *Aedes*.
- auribarbis*, *Cephenomyia*.
- aurotaenia*, *Culex* (see *C. quasigelidus*).

- Australia, bionomics of *Euthyrrhinus mediotabundus* on mango in, 63-66; new *Leptoconops* in, 11, 12; house-flies in, 423-426; mosquitos in, 71, 74, 78, 80; bionomics of Tabanids in, 41-62; notes on termites in, 363-399.
- australicum*, *Trichogramma*.
- australis*, *Locusta* (*Pachytylus*) (see *L. migratoria* ph. *danica*); *Musca* (see *M. convexifrons*).
- autumnalis*, *Musca*.
- azoriensis*, *Culex* (see *C. pipiens*).
- Bamboo (*Bambusa stenostachys*), Coccids on, in Japan, 211, 213, 219.
- bambusa*, *Rachionotomyia*.
- bambusae*, *Antonina*.
- Banana, pests of, in Mauritius, 190.
- bancroftianus*, *Aedes* (*Ochlerotatus*).
- Baphinia*, Coccids on, in Japan, 211.
- barbivirostris*, *Anopheles*.
- barianensis*, *Anopheles*.
- barnesi*, *Tabanus*.
- Barraudius*, new subgenus of *Culex*, 328, 332.
- basinictus*, *Culex*.
- batchelor*, *Tabanus* (see *T. aprepes*).
- Batoceva rubus*, on mango in Mauritius, 189.
- Beans (*Phaseolus vulgare*), *Asterochiton vaporariorum* on, in Britain, 359; pests of, in Mauritius, 186; *Aphis rumicis* on, 81; *Phytometra orichalcea* on, 99.
- beckeri*, *Simulium*.
- beckii*, *Lepidosaphes*.
- beesoni*, *Sympiezomias*.
- Bellardia nigrotecta* (see *Tabanus*).
- bengalensis*, *Gastrophilus intestinalis*.
- bergrothi*, *Theobaldia* (see *T. glaphyroptera*).
- bezziana*, *Chrysomyia* (*Pycnosoma*).
- bezzii*, *Leptoconops*; *Musca*.
- Bibio hortulanus*, attacking potatoes in Germany, 232; larva of, 231.
- „ *johannis*, bionomics of, in Britain, 221, 231.
- „ *lacteipennis*, bionomics of, in Britain, 221, 228-230.
- „ *marci*, bionomics of, in Britain, 221-228.
- „ *pomona*, larva of, 231.
- „ *venosus*, bionomics of, in Britain, 221, 229, 230.
- bicolor*, *Agyrtes*.
- bicruciat*, *Coccus*.
- bifurcatus*, *Anopheles*.
- bimaculata*, *Uranotaenia*.
- bimaculipes*, *Rachionotomyia*.
- binotalis*, *Crocidolomia*.
- bipunctata*, *Adalia*; *Forcipomyia*.
- bitaeniorhynchus*, *Culex*.
- bivittata*, *Musca* (see *M. humilis*).
- bjerkandrella*, *Porpe*.
- blanchardi*, *Kirkioestrus*.
- Blastophaga jacobsoni*, bred from figs in Borneo, 35.
- boetica*, *Lampides*.
- Bogeria* spp., infesting rodents in America, 249.
- Bois d'Amande, new scale on, in Seychelles, 126.
- boisduwali*, *Diaspis*.
- bombacis*, *Rhadinomerus*.
- Bombax malabaricum*, new weevil bred from, in India, 172.
- Boophilus*, on cattle in Kenya Colony, 235.
- Borneo, new fig insects in, 35-40.
- Botys*, on *Cajanus indicus* in Mauritius, 185.
- „ *octoguttatus*, possibly recorded in error for *Thliptoceras octoguttalis* on coffee in Mauritius, 187 (and footnote).
- bovis*, *Hypoderma*.
- brasiliensis*, *Locusta* (*Pachytylus*) (see *Locusta migratoria* ph. *danica*).
- brassicæ*, *Aphis*.
- braziliensis*, *Leptoconops*.
- brevipalpis*, *Culex*; *Cyathomyia*; *Megarhinus*.
- brevirostris*, *Osphilia*.
- Britain, bionomics of *Aphis rumicis* in, 81-89; new Aphid in, 429; *Asterochiton vaporariorum* infesting tomatoes in, 355-359; early stages of Bibionids in, 221-232; bionomics of mosquitos in, 205-209, 427.
- broquettii*, *Grabhamia* (see *Aedes dorsalis*).
- brunnescens*, *Haematopota*.
- brunnipennis*, *Tabanus*.
- Bubaris indemnis*, associated with termite nests, 371.
- buccata*, *Bogeria*.
- Bulgaria, *Agrilus foveicollis* attacking roses in, 353-354.
- Burma, *Osphilia egregia* in, 180.
- Butea frondosa*, new weevil bred from, in India, 178.
- buteae*, *Rhadinopus*.
- buxi*, *Pinnaspis*.
- Cabbage, pests of, in Mauritius, 186.
- cadaverina*, *Cynomyia*.
- caesar*, *Lucilia*.
- Cajanus indicus*, pests of, in Mauritius, 182, 185.
- Calandra oryzae*, in stored maize in Mauritius, 184.

- Calceolaria*, *Asterochiton vaporariorum* on, in Britain, 359.
calceolariae, *Pseudococcus*.
calcitrans, *Culex*; *Stomoxys*.
Calliphora, characters of larvae of, 258, 260.
 „ (*Anastellorrhina*) *augur*, bionomics of, causing myiasis, 250; larva of, 255.
 „ *erythrocephala*, causing myiasis, 250–252; larva of, 254, 255, 257.
 „ *quadrinaculata*, causing myiasis, 250.
 „ *vomitaria*, causing myiasis, 250; larva of, 255.
calopus, *Culex* (see *Aedes argenteus*).
Calotermes convexus, in Australia, 363.
 „ *obscurus*, in Australia, 363.
camelina, *Hippobosca*.
 Camels, Oestrids infesting, 244, 247.
Canavalia ensiformis, pests of, in Mauritius, 185.
canicularis, *Fannia*.
cantans, *Culex* (*Ochlerotatus*) (see *Aedes maculatus*).
capensis, *Hippobosca*; *Locusta* (see *Locustana pardalina*).
capito, *Pachytylus* (see *Locusta migratoria* ph. *migratorioides*).
Capnodium, growth of, due to Coccids, 189.
caprina, *Lipoptena*.
Carrollia, a subgenus of *Culex*, 328.
caspius, *Aedes* (*Ochlerotatus*).
Cassia fistula, new weevil bred from, in India, 180.
cataphylla, *Aedes*.
catoiri, *Ceratitis*.
 Cattle, trypanosomiasis in, in Kenya Colony, 233–235; warble flies infesting, 248.
 Cauliflower, pests of, in Mauritius, 186.
cautella, *Ephesia*.
cayennensis, *Cuterebra*.
centriniformis, *Rhadinopus*.
Cephalomyia maculata (see *Cephalopsis titillator*).
Cephalophus spp., *Cordylobia rodhaini* causing myiasis in, 243.
Cephalopsis titillator, infesting camels, 244, 247; characters of larva of, 255.
Cephenomyia abdominalis, in U.S.A., 250.
 „ *auribarbis*, infesting red deer, 250.
 „ *macrotis*, in N. America, 250.
 „ *phobifer*, in N. America, 250.
Cephenomyia pratti, infesting deer in N. America, 250.
 „ *stimulator*, infesting roe deer, 250.
 „ *trompe*, infesting reindeer, 250.
 „ *ulrichi*, infesting elk, 250.
Ceratitis catoiri, on citrus and mango in Mauritius, 189, 190.
Ceratosolen crassitarsus, 38.
 „ *hewitti*, sp. n., bred from figs in Borneo, 35–38.
 „ *striatus*, 38.
Cercyonia citri, sp. n., on citrus in Gold Coast, 473.
 „ *nigricollis*, 474.
ceriferus, *Ceroplastes*.
Cerococcus ficoides, food-plant, of, in Formosa, 212.
Ceroplastes ceriferus, on citrus and coffee in Kenya Colony, 103.
 „ *rubens*, food-plant of, in Formosa, 212; on fern in Seychelles, 127.
cervi, *Lipoptena*.
 Ceylon, *Ospilia brevisrostris* in, 180; scale-insects in, 127–128.
Chaetococcus, considered a synonym of *Antonina*, 211.
Chalcis euthyrrhini, sp. n., parasite of *Euthyrrhinus meditabundus* in Queensland, 65; description of, 67.
chalconelaena, *Lipoptena*.
chalcytes, *Phytometra*.
chaudoyei, *Anopheles* (see *A. multicolor*).
Chilomenes lunata, predacious on Aphids in Mauritius, 182, 186.
 China, Coccids in, 212, 214, 216; mosquitos found in ports of, 401–409.
chinensis, *Fiorinia*.
Chionaspis, on manioc in Mauritius, 184.
 „ *annandalei*, food-plant of, in Formosa, 213.
 „ *citri*, on citrus in Mauritius, 188.
 „ *dilatata*, on mango in Mauritius, 189.
 „ *eugeniae*, doubt as to identity of, 213.
 „ *subcorticalis*, on *Cajanus indicus* in Mauritius, 185; food-plants of, in Seychelles, 127.
Chloridea obsoleta (see *Heliothis*).
Choeroporpa, New World representative of *Culicomyia*, 335.
christophi, *Megarhinus*.
chrysidiformis, *Cobboldia*.
Chrysoconops, 291.

- Chrysomphalus anidum*, food-plant of, in Formosa, 220.
 „ *aurantii*, food-plant of, in Formosa, 219; bionomics of, in Kenya Colony, 103-104; on citrus in Mauritius, 188.
 „ *ficus*, on citrus in Mauritius, 188.
Chrysomyia, characters of larvae of, 254, 255, 258.
 „ *albiceps*, causing myiasis, 250; larva of, 258, 260.
 „ *bezziana*, producing myiasis in Africa and India, 239, 241, 242; larva of, 259, 260.
 „ *dux* (see *C. megacephala*).
 „ *flaviceps*, 242.
 „ *macellaria* (see *Cochliomyia*).
 „ *marginale*, causing myiasis, 250.
 „ *megacephala*, producing myiasis in India, 239, 242; found in intestines of man, 252; larva of, 255; synonymy of, 250.
 „ *rufifacies* (see *C. albiceps*).
 „ *varipes*, causing myiasis, 250; larva of, 258, 260.
Chrysops flavocincta, in Siam, 431.
chrysostoma, *Sarcophaga*.
cilipes, *Haematopota*.
cinerascens, *Tabanus*.
cinereus, *Aedes*.
cingalaisina, *Musca*.
cinnamomi, *Aulacaspis*.
Cinnamomum camphora, Coccid on, in Formosa, 212.
 „ *ceylanicum*, Coccid on, in Java, 212.
circumscriptus, *Culicoides*.
citri, *Cercyonia*; *Chionaspis*; *Pseudococcus*.
Citrus, new beetle attacking, in Gold Coast, 474; Coccids on, in Japan, 211, 212, 214, 219, 220; scale-insect on, in Kenya Colony, 103; pests of, in Mauritius, 182, 187.
clarki, *Leucotermes*.
claviger, *Anopheles* (see *A. maculipennis*).
cleopatrae, *Anopheles* (see *A. multicolor*).
clypealis, *Idiocerus*.
coalitum, *Simulium alcocki*.
Cobboldia chrysidiformis, infesting elephants in Africa, 248.
 „ *elephantis*, infesting elephants in India, 248; larva of, 255, 261.
Cobboldia loxodontis, infesting elephants in Africa, 248.
 „ *parumspinosa*, infesting elephants in Africa, 248.
Coccidae, from Eastern Asia, 211-220; from the Seychelles, 125-128.
Coccus bicruciatatus, food-plant of, in Formosa, 212.
 „ *elongatus*, food-plants of, in Formosa, 212.
 „ *hesperidum*, on citrus and coffee in Kenya Colony, 103; on mango in Mauritius, 189.
 „ *mangiferae*, on mango in Mauritius, 189.
 „ *viridis*, food-plants of, in Mauritius, 187, 188.
Cochliomyia, characters of larvae of, 254, 255, 258.
 „ *macellaria*, causing myiasis, 240, 250.
 „ *viridula*, causing myiasis, 250.
Coconut, pests of, in Mauritius, 187.
Codiaeum variegatum, Coccid on, in Japan, 212.
Coelonia solani, on tobacco in Mauritius, 183.
Coffee, scale-insect on, in Kenya Colony, 103; parasites of pests of, in Kenya Colony, 191-201; pests of, in Mauritius, 187.
Coffee Bug (see *Antestia lineaticollis*).
columbae, *Haemoproteus*.
communis, *Aedes* (*Ochlerotatus*).
compactus, *Pyriloxenus*.
compositus, *Oestrus*.
comstocki, *Pseudococcus*.
concinus, *Culex* (see *Aedes sticticus*).
concolor, *Aedes* (*Caenocephalus*); *Lutzia*.
conducens, *Musca* (see *M. humilis*).
conjugens, *Gyrostigma*.
consputus, *Rhadinopus*.
convexifrons, *Musca* (see *M. albo-maculata*).
convexus, *Calotermes*.
convolvuli, *Herse* (*Sphinx*).
Coptotermes, 363.
 „ *lacteus*, in Australia, 394.
Coquillettidia, subgenus of *Taeniorhynchus*, 291.
Cordylobia anthropophaga, causing myiasis, 241, 243.
 „ *rodhaini*, causing myiasis, 241, 243.
corinnae, *Hypoderma*.
corvina, *Musca*.
Corynoneura, 1.
Cosmophila flava, on cotton in Mauritius, 181.
 „ *xanthindyma* (see *C. flava*).

- Cosmopolites sordidus*, on banana in Mauritius, 190.
- costalis*, *Anopheles* (*Myzomyia*).
- Cotton, pests of, in Mauritius, 181, 182.
- crassirostris*, *Musca* (*Philaematomyia*).
- crassitarsus*, *Ceratosolen*.
- crassus*, *Alcides*.
- Cratopus punctum*, on coffee in Mauritius, 187.
- crawii*, *Antonina*.
- cretinus*, *Aedes* (*Stegomyia*).
- Cricetomys gambianus*, *Cordylobia rodhaini* causing myiasis in, 243.
- crimicauda*, *Culex*.
- Crioceris nigropunctata*, 473.
- „ *quatuordecimpunctata*, 473.
- „ *viridissima*, sp. n., on asparagus in East Africa, 473.
- cristata*, *Gedotelstia*.
- Crocidolomia binotalis*, on cabbage in Mauritius, 186.
- crucians*, *Aedes* (*Ochlerotatus*); *Anopheles*.
- Cryptodus grossipes*, in termite nests, 371.
- Cryptorrhynchus lapathi*, stridulatory apparatus of, 178.
- „ *mangiferae*, on mango in Mauritius, 190.
- Ctenodactylus gundi*, 5.
- Cucumbers, pests of, in Mauritius, 186.
- Culex*, key to Palaearctic species of, 328-331; characters of larvae of, 92.
- „ *aegypti*, 325, 326.
- „ *albigena* (see *C. ventrilloni*).
- „ *andersoni*, 78.
- „ *annulatus*, 78, 267.
- „ *annulatus* var. *maroccanus* (see *Theobaldia longiareolata*).
- „ *annulirostris*, 78.
- „ *apicalis*, in Palaearctic Region, 336.
- „ *auritaenia* (see *C. quasigelidus*).
- „ *azoriensis* (see *C. pipiens*).
- „ *basicinctus*, n. n., proposed for *Leucomyia annulata*, 78.
- „ *bitaeniorhynchus*, in Palaearctic Region, 337.
- „ (*Neoculex*) *brevipalpis*, 79, 336.
- „ *calcitrans*, perhaps a synonym of *C. pipiens*, 345.
- „ *calopus* (see *Aedes argenteus*).
- „ *cantans* (see *Aedes maculatus*).
- „ *concinus* (see *Aedes sticticus*).
- „ *crimicauda*, n. n., for *Culex parvus*, Taylor, 77.
- „ *curriei* (see *Aedes dorsalis*).
- „ *domesticus*, perhaps a synonym of *C. pipiens*, 345.
- „ *dorsalis* (see *Aedes*).
- Culex fasciatus*, perhaps a synonym of *C. pipiens*, 345.
- „ *fatigans*, breeding-places of, in Far Eastern ports, 402, 404, 405, 406, 407; in Palaearctic Region, 345.
- „ *ficalbi* (see *Theobaldia fumipennis*).
- „ *filipes* (see *Rachisoura*).
- „ *flavirostris*, perhaps a synonym of *Theobaldia morsitans*, 289.
- „ *flavovirens*, believed to be a Chironomid, 267.
- „ *fuscus* (see *Aedes geniculatus*).
- „ (*Neoculex*) *fuscus*, 79.
- „ *hayashi*, breeding-places of, in Japanese ports, 405, 406; in Palaearctic Region, 336; anatomy of, 332.
- „ *hortensis*, in Palaearctic Region, 336; anatomy of, 292.
- „ (*Culiciomyia*) *impudicus*, in Palaearctic Region, 335.
- „ (*Lophoceratomyia*) *jenseni*, 336; synonymy of, 78.
- „ *jugorum* (see *Aedes pullatus jugorum*).
- „ *laticinctus*, in Palaearctic Region, 342.
- „ *laurenti*, in Palaearctic Region, 344.
- „ *lazarensis* (see *Aedes communis*).
- „ *leucomelas*, probably a synonym of *Aedes communis*, 314.
- „ *luteus*, perhaps a synonym of *C. pipiens*, 345.
- „ *maculiventris* (see *Aedes dorsalis*).
- „ *meridionalis*, perhaps a synonym of *C. pipiens*, 345.
- „ *mimeticus*, in Palaearctic Region, 337.
- „ *mimulus*, *Anophelines* associated with, 338.
- „ (*Barraudius*) *modestus*, in Palaearctic Region, 332; anatomy of, 332.
- „ *molestus*, perhaps a synonym of *C. pipiens*, 345.
- „ *musicus*, perhaps a synonym of *Aedes rusticus*, 308.
- „ *nemorosus* (see *Aedes communis*).
- „ *nemorosus* var. *dorsovittatus* (see *Aedes sticticus*).
- „ *nicaensis*, perhaps a synonym of *Theobaldia annulata*, 288.
- „ *nigripes* var. *sylvae* (see *Aedes sticticus*).
- „ *nigritulus* (see *C. pipiens*).
- „ *niveus*, 267.
- „ *orientalis*, sp. n., 342; in Japan, 338; breeding-places of, in Japanese ports, 407, 408.

- Culex osakensis* (see *C. pipiens*).
 „ *pallens* (see *C. pipiens*).
 „ (*Culiciomyia*) *pallidithorax*, 335.
 „ *pallipes*, 267; perhaps a synonym of *C. pipiens*, 345.
 „ *perexiguus*, in Palaearctic Region, 342; anatomy of, 343, 344.
 „ *pipiens*, breeding-places of, in Britain, 205, 207, 427; in Japan, 407, 408; in Palaearctic Region, 345.
 „ (*Barraudius*) *pusillus*, in Palaearctic Region, 333; anatomy of, 332, 333, 334.
 „ *quasigelidus*, in Palaearctic Region, 337; synonymy of, 78.
 „ *quasimodestus* (see *C. pipiens*).
 „ *rufus* (see *C. pipiens*).
 „ *salus* (see *C. sitiens*).
 „ *sergenti*, perhaps a synonym of *C. apicalis*, 336.
 „ *simpsoni*, 78.
 „ *sinensis*, 78; in Palaearctic Region, 337.
 „ *sitiens*, 78, 339; breeding in seawater, 29.
 „ *spathipalpis* (see *Theobaldia longiareolata*).
 „ *taeniorhynchus*, breeding in salt water, 31.
 „ *taylori*, n. n., proposed for *Leucomyia annulirostris*, 78.
 „ *thalassius*, breeding in brackish water, 29.
 „ *thoracicus*, perhaps a synonym of *C. pipiens*, 345.
 „ *tipuliformis*, in Palaearctic Region, 339, 340, 341; venation of, 285.
 „ *trifilatus*, 341.
 „ *tritaeiorhynchus*, breeding-places of, in Far Eastern ports, 402–404, 406, 407; in Palaearctic Region, 339; in Palestine, 116.
 „ *univittatus*, 342.
 „ *varioannulatus* (see *C. pipiens*).
 „ *ventrillonis*, synonymy of, 78.
 „ *virgatipes*, breeding-places of, in Hong Kong, 404; in Palaearctic Region, 341.
 „ *viridis*, believed to be a Chironomid, 267.
 „ *vishnui*, 77; in Palaearctic Region, 339.
 „ *vulgaris*, doubt as to identity of, 267.
Culicada nemorosa salina (see *Aedes sticticus*).
 „ *nigrina* (see *Aedes sticticus*).
Culicella, subgenus of *Theobaldia*, 286, 289.
culicifacies, *Anopheles*.
Culicini, key to Palaearctic genera of, 281.
Culiciomyia, a subgenus of *Culex*, 328, 334.
 „ *nebulosa*, perhaps a synonym of *Culex impudicus*, 335.
Culicoides, key to Palestine species of, 108.
 „ *albicans*, 110.
 „ *circumscripius*, in Palestine, 108, 115.
 „ (*Johannseniella*) *fulvithorax*, in Africa, 112.
 „ *guttularis*, sp. n., in Palestine, 108, 114.
 „ *newsteadii*, sp. n., in Palestine, 108, 113.
 „ *odiatius*, sp. n., in Palestine, 108, 112.
 „ *odibilis*, sp. n., in Palestine, 108, 114.
 „ *pulicaris*, 113, 114.
 „ *pumilus*, 109.
 „ *puripennis*, sp. n., in Palestine, 108–109.
 „ *susae*, in Italy, 112.
 „ *tentorius*, sp. n., in Palestine, 108, 110–112.
 „ *vitreiipennis*, sp. n., in Palestine, 108.
Culiseta siberiensis (see *Theobaldia alaskaensis*).
cuniculi, *Cuterebra*.
curculionis, *Thaumasura*.
 Currant, new Coccid on, in Japan, 216.
curriet, *Culex* (see *Aedes dorsalis*).
curtipalpis, *Lophocerotomyia* (see *Culex jenseni*).
Cuterebra spp., infesting rodents in America, 249.
Cyathomyia brevipalpis, referred to subgenus *Neoculex*, 79; (see *Culex*).
 „ *jenseni* (see *Culex*).
Cycas revoluta, Coccid on, in Formosa, 220.
Cydia pomonella, on peaches in Mauritius, 190.
Cylas formicarius, on sweet potato in Mauritius, 184.
Cynomyia, characters of larvae of, 258.
 „ *cadaverina*, causing myiasis, 250; larva of, 255.
cyprius, *Aedes* (see *A. lutescens*).
Dacus sygmoides, on cucurbitaceous plants in Mauritius, 186.
daliensis, *Drepanotermes*.
danica, *Locusta*.

- darwinensis*, *Mastotermes*.
dasyпода, *Rogenhofera*.
decovella, *Tachardia*.
 Deer, Oestrids infesting, 248, 250.
Deilephila livornica, on grape vines in Mesopotamia, 479.
Deinocerites, 328.
iemodocus, *Papilio*.
dendrophila, *Aedes* (*Stegomyia*).
Dermatobia hominis, causing myiasis, 241, 249.
desertorum, *Hypoderma*.
designatus, *Tabanus* (see *T. rufinotatus*).
determinata, *Musca* (see *M. nebulo*).
detritus, *Aedes* (*Ochlerotatus*).
diana, *Hypoderma*.
diantaeus, *Aedes* (*Ochlerotatus*).
Diaspis, 218.
 „ *boisdouali*, on coconut in Mauritius, 187.
 „ *flacourtiæ*, on *Flacourtia* in Seychelles, 128.
 „ (*Aulacaspis*) *pentagona*, 128; food-plant of, in Formosa, 213; on peaches in Mauritius, 190.
Diatraea sacchariphaga (see *Proceras*).
dilatata, *Chionaspis*.
Dilophus febrilis, 232; Gregarine parasite of larva of, 231.
Dinoderus minutus, in stored maize in Mauritius, 184.
Dinomimeles, 328.
dipteroearpi, *Alcides*.
Dipteroearpus tuberculatus, new weevil bred from seeds of, in India, 167.
disjunctus, *Oestrus*.
dispar, *Heterogamus*.
divergens, *Simulium*.
Diversinervus silvestrii, parasite of *Coccus viridis* in Mauritius, 188.
diversipes, *Rhadinomerus*.
Dociostaurus maroccanus, 159, note.
domestica, *Musca*.
domesticus, *Culex*.
 Donkeys, trypanosomiasis in, in Kenya Colony, 234.
dorsalis, *Aedes* (*Ochlerotatus*).
dorsomaculata, *Musca* (see *M. albo-maculata*).
dorsovittatus, *Culex* *nemorosus* (see *Aedes sticticus*).
Drepanotermes daliensis, sp. n., in Australia, 373-375.
 „ *perniger*, in Australia, 374-375.
 „ *rubriceps*, 364, 367, 373, 376-378.
 „ *septentrionalis*, sp. n., bionomics of, in Australia, 368, 372.
Drepanotermes silvestrii, sp. n., bionomics of, in Australia, 364-371.
Drosophila, larva of, accidentally producing myiasis, 252.
dubium, *Simulium hirsutum*.
duplex, *Pseudaonidia*.
 Dutch East Indies, mosquitos in, 70.
dux, *Chrysomyia* (see *C. megacephala*).
dyari, *Theobaldia*.
Dysdercus, on cotton in Mauritius, 182.
Dysis, 474.
Earias insulana, on cotton in Mauritius, 182.
eatoni, *Aedes* (*Finlaya*).
echinus, *Aedes* (*Finlaya*).
Ecculex, subgenus of *Aedes*, 293, 322.
egregia, *Ospilia*.
 Egypt, *Hippobosca camelina* on camels in, 122; mosquitos in, 264.
 Elephant, Oestrids infesting, 247, 248, 249.
elephantis, *Cobboldia*.
elestiem, *Tabanus* (see *T. rufinotatus*).
 Elk, Oestrid infesting, 250.
elongatus, *Coccus*.
elutus, *Anopheles*.
emasculator, *Bogeria*.
Ephestia cautella, on ground-nuts in Mauritius, 186.
ephippium, *Cuterebra*.
Epipyrops fuliginosa, sp. n., parasitising *Idiocerus* in India, 466, 468.
equi, *Gastrophilus* (see *G. intestinalis*).
equina, *Hippobosca*.
equinum, *Simulium*.
Eveta ornatalis, on sweet potato in Mauritius, 184.
Eriococcus graminis, *Antonina crawii* recorded as, 211.
Eristalis, characters of larva of, 258.
 „ *tenax*, accidentally producing myiasis 252.
erythrocephala, *Calliphora*.
 Ethiopian Region, mosquitos from, found in Palaearctic Region, 264.
Eucalymnatus tessellatus, food-plants of, in Mauritius, 185, 189.
eucalypti, *Hamitermes*.
Eucalyptus, termites infesting, in Australia, 394.
Eugenia, new weevils bred from, in India, 175, 177.
 „ *caryophyllata*, new scale on, in Seychelles, 125.
eugeniae, *Chionaspis*; *Phenacaspis*.
euonymi, *Aphis* (see *A. rumicis*).
Euonymus, food-plant of *Aphis rumicis*, 81, 86, 87.

- Eupristina verticillata*, sp. n., from figs in Borneo, 38-40.
 Europe, representative mosquitos of, 265.
eusirus, *Microplitis*.
eutaeniata, *Musca* (see *M. humilis*).
Eutermes, not attacked by *Iridomyrmex*, 371.
 „ *tyriei*, in Australia, 386.
euthyrrhini, *Chalcis*.
Euthyrrhinus meditabundus, bionomics of, on mangos in Australia, 63-66 ; new parasite of, 67.
excrucians, *Aedes* (*Ochlerotatus*).

fabae, *Aphis* (see *A. rumicis*).
falciparum, *Plasmodium*.
Fannia, larva of, accidentally producing myiasis, 252.
 „ *canicularis*, causing myiasis, 241 ; found in bladder of man, 253 ; characters of larva of, 258, 260.
 „ *scalaris*, characters of larva of, 258, 260.
 Far East, mosquitos found in ports of, 401-409.
fasciata, *Bogeria* ; *Stegomyia* (see *Aedes argenteus*).
fasciatus, *Culex*.
fatigans, *Culex*.
febrilis, *Dilophus*.
 Federated Malay States, new mosquitos in, 72, 79 ; mosquito larvae in, 91-97.
fergusoni, *Musca* (see *M. convexifrons*).
ferox, *Leucotermes*.
ferruginea, *Aphiochaeta* (see *A. xanthina*).
ficabi, *Culex* (see *Theobaldia fumi-pennis*).
ficoides, *Cerococcus*.
Ficus spp., fig insects from, in Borneo, 35.
Ficus retusa, Coccid on, in Japan, 212.
ficus, *Chrysomphalus*.
 Fig Insects, new, from Borneo, 35-40.
 Figs, bionomics of *Ocnerogyia amanda* on, in Mesopotamia, 477.
 Fiji, new mosquito in, 79.
filamentosus, *Pseudococcus*.
filipes, *Rachisoura* (*Culex*).
finalis, *Tabanus*.
 Finland, new mosquitos in, 306, 314.
Finlaya, subgenus of *Aedes*, 293, 317 ; key to Palaearctic species of, 317.
Fiorinia chinensis, sp. n., in China, 215, 216.
 „ *fioriniae* on palm in U.S.A., 215.
 „ *japonica*, food-plants of, in Formosa, 215.

Fiorinia juniperi, food-plants of, in Formosa, 215.
 „ *rubrolineata*, 216.
fioriniae, *Fiorinia*.
Flacourtia, *Diaspis flacourtiae* on, in Seychelles, 128.
flacourtiae, *Diaspis* (*Aulacaspis*).
flava, *Cosmophila*.
flaviceps, *Anopheles* ; *Chrysomyia*.
flavipes, *Gastrophilus* ; *Simulium*.
flavirostris, *Culex*.
flaviventris, *Leptoconops*.
flavocincta, *Chrysops*.
flavovirens, *Culex*.
 Flax, Lepidopterous pests of, in Kenya Colony, 99-102.
flerowi, *Anopheles pseudopictus*.
fontenella, *Bogeria*.
Forcipomyia bipunctata, in Palestine, 115.
forestan, *Rhopalocampa*.
formicarius, *Cylas*.
 Formosa, Coccids in, 211-220.
foveicollis, *Agrilus*.
fraseri, *Aedes* (*Stegomyia*) ; *Leptosomatomyia*.
frater, *Sympiezomias*.
freyi, *Aedes* (*Ochlerotatus*).
 Fuchow, breeding-places of mosquitos at, 401.
fuliginosa, *Epipyrops*.
fuliginosus, *Anopheles* ; *Silvius* (see *S. notatus*).
fulvicollis, *Plecia*.
fulvimediodides, *Tabanus*.
fulvimedius, *Tabanus*.
fulvithorax, *Culicoides* (*Johannseniella*).
fumi-pennis, *Theobaldia* (*Culicella*).
fumosus, *Mecistocerus*.
funebis, *Cuterebra*.
funerea, *Aedes* (*Skusea*).
fuscus, *Culex* (see *Aedes geniculatus*).
fuscus, *Culex* (*Neoculex*, *Protomelanconion*) ; *Opifex*.

Galinosoga parviflora, food-plant of *Phytometra orichalcea*, 99.
gallii, *Aedes* (see *A. pullatus jugorum*).
Gardenia florida, Coccid on, in Japan, 212.
Gastrophilus (see *Gastrophilus*).
Gastrimargus musicus, 162.
Gastrophilus equi (see *G. intestinalis*).
 „ *flavipes*, distribution of, 245.
 „ *gedoelsti*, infesting zebra, 245.
 „ *haemorrhoidalis*, in horses, distribution of, 244.
 „ *intestinalis*, in horses, distribution of, 244 ; larva of, 261.

- Gastrophilus intestinalis* var. *asininus*, 244.
 „ *intestinalis* var. *bengalensis*, 244; egg of, 261.
 „ *lativentris*, in Courland, 245.
 „ *magnicornis*, possibly identical with *G. intestinalis* var. *bengalensis*, 245.
 „ *nasalis* (see *G. veterinus*).
 „ *nigricollis*, in Bessarabia, 245.
 „ *pecorum*, in horses, distribution of, 245.
 „ *pecorum zebrae*, infesting zebra, 245.
 „ *ternicinctus*, infesting zebra, 245.
 „ *veterinus*, in horses, distribution of, 245; larva of, 261.
gazellae, *Hypoderma*.
gedoelsti, *Gastrophilus*.
Gedoelstia cristata, infesting antelopes in Africa, 247.
 „ *hässleri*, infesting antelopes in Africa, 247.
Gelastorrhinus sagitta, breeding-places of, in Transcaspia, 154.
geniculatus, *Aedes* (Finlaya).
germanus, *Hamitermes*.
 Germany, Bibionid larvae attacking potatoes in, 232.
germinatus, *Mandalotus*.
gibsoni, *Musca*.
glaphyroptera, *Theobaldia*.
globulus, *Trigonogenius*.
gloveri, *Lepidosaphes*.
Glugea, infesting Bibionid larvae, 231.
Glyphodes indica, on cucurbitaceous plants in Mauritius, 186.
 Goats, *Lipoptena caprina* on, in Palestine, 124.
 Gold Coast, new mosquito in, 74.
gossypiella, *Platyedra*.
gossypii, *Aphis*.
Gossypium herbaceum, Coccid on, in Japan, 212.
Grabhamia broquettii (see *Aedes dorsalis*).
grahami, *Aedes* (see *A. dorsalis*).
graminis, *Eriococcus*.
grandis, *Leptoconops*; *Rogenhoferia*.
graveleyi, *Megarhinus* (*Toxorhynchites*).
grisea, *Bogeria*.
grossipes, *Cryptodus*.
 Ground-Nut (*Arachis hypogaea*), pests of, in Mauritius, 186.
 Guava (*Psidium*), scale-insects on, in Mauritius, 182.
gurneyi, *Philæatomyia* (see *Musca* (*Philepis*) *inferior*).
guttularis, *Culicoides*.
Gyrostigma, larva of, 254.
 „ *conjugens*, infesting rhinoceros in Africa, 245.
 „ *meruensis*, infesting rhinoceros in Africa, 245.
 „ *pavesii*, infesting rhinoceros in Africa, 245.
 „ *sumatrensis*, infesting rhinoceros in East Indies, 245.
 Haartebeeste, Oestrids infesting, in Africa, 246, 247.
hackeri, *Anopheles leucosphyrus*.
Hadronotus anlestiae, parasite of *An-testia lineaticollis* in Kenya Colony, 191-201.
Haematopota alluaudi, attacking cattle in Kenya Colony, 235.
 „ *brunnescens*, attacking cattle in Kenya Colony, 235.
 „ *cilipes*, in Siam, 432.
 „ *hirta*, attacking cattle in Kenya Colony, 235.
 „ *pachycera*, in Siam, 432.
 „ *similis*, attacking cattle in Kenya Colony, 235.
 „ *ugandae*, attacking cattle in Kenya Colony, 235.
 „ *validicornis* (see *H. pachycera*).
Haemoproteus columbae, carried by *Lynchia maura*, 122.
haemorrhoidalis, *Gastrophilus*.
halifaxi, *Lutzia*.
Hamitermes eucalypti, sp. n., bionomics of, in Australia, 385, 391-395.
 „ *germanus*, 383.
 „ *herbertensis*, 393.
 „ *latidens*, 381.
 „ *lawrensis*, 384, 386.
 „ *meridionalis*, 384, 386.
 „ *neogermanus*, sp. n., in Australia, 390.
 „ *obtusidens*, 382.
 „ *parvus*, sp. n., in Australia, 378-381.
 „ *perplexus*, sp. n., bionomics of, in Australia, 371, 381-388, 390, 395.
 „ *perplexus* var. *victoriensis*, n., in Australia, 388.
Harpagomyia, 282.
hässleri, *Gedoelstia*.
hayashi, *Culex*.
Heliothis (*Chloridea*) *obsoleta*, on flax in Kenya Colony, 99; food-plants of, in Mauritius, 182-186.

- Helophilus*, characters of larva of, 258.
 „ *pendulus*, accidentally producing myiasis, 252.
Hemichionaspis, considered a synonym of *Pinnaspis*, 214.
Hemileia vastatrix, on coffee in Mauritius, 187.
hemisphaerica, *Saissetia*.
Henicospilus antancarvus, parasite of *Sesamia vuteria* in Mauritius, 184.
herbertensis, *Hamitermes*.
hermanii, *Pseudogametes*.
Herse convolvuli, on sweet potato in Mauritius, 184.
hesperidum, *Coccus*.
Heterodeya radicicola, food-plants of, in Mauritius, 183, 186.
Heterogamus, treated as a subgenus of *Rhogas*, 130.
 „ *dispar*, 130, 132.
hewitti, *Ceratosolen*.
Hibiscus esculentus, food-plant of *Chloridea obsoleta* in Mauritius, 182.
 „ *rosa-sinensis*, Coccid on, in Japan, 212.
hilaris, *Tabanus* (see *T. tenens*).
hilli, *Mimeteomyia* (see *Rachisoura filipes*); *Musca* (see *M. ventrosa*).
Hippobosca camelina, in Palestine, 122.
 „ *capensis*, in Palestine, 122.
 „ *equina*, in Palestine, 121.
hippopotami, *Rhinoestrus*.
Hippopotamus, Oestrid infesting, in Africa, 247.
hirsuteron, *Aëdes*.
hirsutum, *Simulium*.
hirta, *Haematopota*.
hispaniola, *Anopheles* (*Myzomyia*).
histrio, *Cuterebra*.
Hodgesia, 282.
Hollyhock, food-plant of *Asterochiton vaporariorum* in Britain, 359.
Holoconops, a subgenus of *Leptoconops*, 3, 21, 107, note.
hololeucus, *Niptus*.
hominis, *Dermatobia*.
Horses, Oestrids infesting, 244, 245; *Simulium* attacking, in Palestine, 117.
hortensis, *Culex*.
hortulanus, *Bibio*.
humilis, *Musca* (see *M. pumila*).
hyalinipennis, *Leptoconops* (see *L. bezzii*).
Hypocera incrassata, parasite of larva of *Bibio marci*, 231.
Hypoderma, characters of larva of, 255.
 „ *actaeon*, infesting red deer, 248.
Hypoderma bovis, distribution of, on cattle, 248; causing myiasis, 241, 248; larva of, 261.
 „ *corinnae*, infesting gazelles in Africa, 248.
 „ *desertorum*, in Egypt, 248.
 „ *diana*, infesting red deer, 248.
 „ *gazellae*, infesting gazelles in Africa, 248.
 „ *lineata*, distribution of, on cattle, 248; larva of, 261.
 „ *silenus*, infesting donkeys in Egypt, 248.
hyrcanus, *Anopheles*.
ibicis, *Lipoptena*.
Icerya purchasi, food-plant of, in Formosa, 211; on citrus and coffee in Kenya Colony, 103.
 „ *seychellarum*, food-plants of, in Formosa, 211; food-plants of, in Mauritius, 185, 188, 189.
Idiocerus spp., natural enemies of, in India, 465-469.
Ilex crenata, new Coccid on, in Japan, 216.
immaculatus, *Anopheles*.
impudicus, *Culex* (*Culiciomyia*).
incrassata, *Hypocera*.
indefinitus, *Anopheles rossi* (see *A. subpictus* var. *vagus*).
indemnisi, *Bubaris*.
India, new Braconidae in, 129-132; flies causing myiasis in, 239; house-flies in, 415-423; natural enemies of mango leaf-hoppers in, 465-469; new mosquitos in, 72, 73, 77; new weevils in, 165-180.
indianus, *Tabanus*.
indica, *Glyphodes*; *Musca* (*Philaematomyia*) (see *M. cingalaisina*).
indicus, *Leptoconops*.
inferior, *Musca*.
insulata, *Cuterebra*.
innuitus, *Aëdes* (see *A. alpinus*).
insidiator, *Tabanus*.
insignis, *Musca* (*Philaematomyia*) (see *M. crassirostris*).
insulana, *Earias*.
interruptus, *Leptoconops*; *Oestrus*.
intestinalis, *Gastrophilus*.
intrudens, *Aëdes* (*Ochlerotatus*).
inuitatus, *Aspidiotus*.
iota, *Pseudaonidia*.
Iridomyrmex sanguineus, relation of, to termites in Australia, 371, 388.
irritans, *Leptoconops*; *Lyperosia*.
Italy, *Culicoides susae* in, 112.

- jacobsoni*, *Blastophaga*.
janata, *Achaea*.
Janthinosa *lutzi*, carrying eggs of *Dermatobia hominis*, 249.
 „ *musica* (see *Psorophora posticata*).
 Japan, Coccids in, 211, 215–217; new mosquitos in, 274, 327, 338; mosquitos found in ports of, 401–409.
japonica, *Fiorinia*; *Lepidosaphes*; *Mytilaspis pomorum* (see *Lepidosaphes*).
japonicus, *Aedes* (*Finlaya*).
 Java, Coccids in, 212, 213.
jensenii, *Culex* (*Cyathomyia*, *Lophocera-tomyia*).
johannis, *Bibio*.
Johannseniella fulvithorax (see *Culicoides*).
jugorum, *Aedes pullatus* (*Culex*).
juniperi, *Fiorinia*.
karwari, *Anopheles*.
kasauliensis, *Musca* (see *M. ventrosa*).
 Kashmir, house-flies in, 423.
kempi, *Megarhinus* (*Toxorhynchites*).
 Kenya Colony, bionomics of *Chrysomphalus aurantii* in, 103–104; bionomics of parasites of the coffee bug in, 191–201; trypanosomiasis in the absence of *Glossina* in, 233–236; Lepidopterous pests of flax in, 99–102; human disease possibly carried by *Simulium* in, 236–238.
kertészii, *Leptoconops*.
Kirkioestrus spp., infesting antelopes in Africa, 247.
klossi, *Megarhinus* (*Toxorhynchites*).
 Kobe, breeding-places of mosquitos at, 406.
kochi, *Anopheles*.
koreicus, *Aedes* (*Finlaya*).
Lachnosterna smithi, food-plants of, in Mauritius, 184, 185.
lacinia, *Pseudaonidia*.
lacteipennis, *Bibio*; *Leptoconops*.
lacteus, *Coptotermes*.
Laingia psammae, gen. et sp. n., on grasses in Britain, 429.
lambens, *Sarcophaga*.
Lampides boetica, on *Cajanus indicus* in Mauritius, 185.
lapathi, *Cryptorrhynchus*.
larvipara, *Musca*.
lataniae, *Aspidiotus*.
laticinctus, *Culex*.
latidens, *Hamitermes*.
latiparafrons, *Musca* (see *M. gibsoni*).
lativentris, *Gastrophilus*.
laurae, *Leptoconops* (see *L. kertészii*).
laurensis, *Hamitermes*.
laurenti, *Culex*.
lazarensis, *Aedes*.
leicesteri, *Megarhinus*.
Leicestertia annulipalpis, in Sumatra, 74.
lepidonotus, *Aedes* (*Ochlerotatus*).
Lepidosaphes beekii, food-plant of, in Formosa, 216.
 „ *gloueri*, on citrus in Mauritius, 188.
 „ *japonica*, food-plant of, in Japan, 217.
 „ *tubulorum*, sp. n., food-plant of, in Formosa and Japan, 216.
 „ *ulmi*, *L. tubulorum* recorded as, 217.
Lepidotomyia lineata (see *Aedes funerea* var. *ornata*).
Leptoconops, revision of genus, 1–28; key to females of, 27.
 „ *bezzii*, 2; anatomy of, 19; description of, 17.
 „ *braziliensis*, anatomy of, 8, 19; description of, 13.
 „ *flaviventris*, description of, 13.
 „ *grandis*, sp. n., anatomy of, 9, 19; description of, 12.
 „ *hyalinipennis* (see *L. bezzii*).
 „ *indicus*, description of, 19.
 „ *interruptus*, 23.
 „ *irritans*, bionomics of, 3; description of, 14; not experimentally infected with malaria, 4.
 „ *kertészii*, bionomics of, 4; anatomy of, 19; description of, 21; in Palestine, 107.
 „ *kertészii* var. *americanus*, n., anatomy of, 5–9, 19; description of, 22.
 „ *kertészii* var. *peneti*, 6; description of, 22.
 „ *lacteipennis*, anatomy of, 9; description of, 23.
 „ *laurae* (see *L. kertészii*).
 „ *longicornis*, sp. n., anatomy of, 9, 19; description of, 11.
 „ *rhodensis*, sp. n., anatomy of, 6, 9; description of, 14.
 „ *siamensis*, sp. n., anatomy of, 6, 8, 9, 19; description of, 20.

- Leptoconops spinosipes* (see *Acanthoconops albiventris*).
 „ *stygius*, 1; description of, 10; anatomy of, 6, 8, 9, 19.
 „ *torrens*, 1, 15–17; anatomy of, 6, 8, 9, 19.
Leptosomatomyia fraseri, 286.
lesnei, *Ochlerotatus*.
leucocnematus, *Tabanus* (*Atylotus*).
leucomelas, *Culex*.
Leucomyia annulata, new name suggested for, 78, note.
 „ *annulirostris* (see *Culex taylori*).
leucosphyrus, *Anopheles*.
Leucotermes clarki, sp. n., in Australia, 395–398.
 „ *ferox*, in Australia, 398.
 „ *paradoxus*, in Australia, 363.
 „ *validus*, in Australia, 398.
lewisi, *Anopheles* (see *A. maculipennis*).
 Lime (*Citrus medica* var. *acida*), pests of, in Mauritius, 187.
lindesayi, *Anopheles*.
lineata, *Hypoderma*; *Lepidotomyia* (see *Aedes funerea* var. *ornata*); *Musca* (*Pristirhynchomyia*).
lineaticollis, *Antestia*.
lineatum, *Simulium* (see *S. maculatum*).
lineatus, *Tabanus* (see *T. rufinotatus*).
Lipoptena caprina, sp. n., on goats in Palestine, 122, 124.
 „ *cervi*, 124.
 „ *chalcomelaena*, on goats in Palestine, 124.
 „ *ibicis*, possibly a synonym of *L. chalcomelaena*, 124.
 Litchi (*Nephelium*), scale-insects on, in Mauritius, 182.
litura, *Prodenia*.
livornica, *Deilephila*.
Locusta, revision of genus, 135–163.
 „ (*Pachytylus*) *brasiliensis* (see *Locusta migratoria* ph. *danica*).
 „ *capensis* (see *Locustana pardalina*).
 „ *danica*, considered to be a phase of *L. migratoria*, 137.
 „ *migratoria*, bionomics and migrations of forms of, 135–163; dimensions of phases of, 139; key to phases of, 161.
 „ *migratorioides*, considered to be a phase of *L. migratoria*, 150.
 „ *pardalina* (see *Locustana*).
 „ *sulcicollis* (see *Locustana pardalina*).
Locustana, gen. n., erected for *Locusta pardalina*, 137, 162.
Locustana pardalina, bionomics of, in South Africa, 155–159; key to phases of, 163.
 „ *pardalina solitaria*, ph. n., 163.
 Locusts, biology and migrations of, 143–148.
longiareolata, *Theobaldia* (*Allotheobaldia*).
longicornis, *Leptoconops*.
Lophoceratomyia, a subgenus of *Culex*, 328; *Cyathomyia* a synonym of, 79.
 „ *curtipalpis* (see *Culex jenseni*).
loxodontis, *Cobboldia*.
Lucilia, characters of larvae of, 258, 260.
 „ *argyricephala*, causing myiasis, 239, 250; larva of, 254, 255.
 „ *caesar*, causing myiasis, 250.
 „ *severissima* (see *L. argyricephala*).
 „ *sericata*, causing myiasis, 240, 250; larva of, 254, 255, 257.
 „ *tasmaniensis*, causing myiasis, 250.
ludlowi, *Anopheles*.
lukisi, *Anopheles* (see *A. algeriensis*).
lunata, *Chilomenes*.
lusoria, *Musca*.
lutescens, *Aedes* (*Ochlerotatus*).
luteus, *Culex*.
lutzi, *Janthinosoma*.
Lutzia concolor, 327.
 „ *halifaxi*, 327.
 „ *tigripes*, 337.
 „ *vorax*, sp. n., in Japan, 327; breeding-places of, in Japanese ports, 405–406; anatomy of, 285, 292.
Lynchia maura, on pigeons in Palestine, 122.
Lyperosia irritans, in Palestine, 121.
 „ *minuta*, in Palestine, 121.
lysimon, *Zizera*.
macdonaldi, *Oestrus*.
macellaria, *Cochliomyia* (*Chrysomyia*).
Macrosiphum picridis, on artichoke in Mauritius, 186.
macrotris, *Cephenomyia*.
maculata, *Cephalomyia* (see *Cephalopsis titillator*).
maculatum, *Simulium*.
maculatus, *Aedes* (*Ochlerotatus*); *Anopheles*.
maculipalpis, *Anopheles*.
maculipennis, *Anopheles*; *Plutella*.

- maculiventris*, *Culex* (see *Aedes dorsalis*).
maculosa, *Cuterebra*.
magnicornis, *Gastrophilus*.
magnifica, *Wohlfahrtia*.
maidis, *Aphis*.
Maize, pests of, in Mauritius, 183.
Malaria, *Leptocnops irritans* not experimentally infected with, 4; indigenous cases of, in England, 209.
malefactor, *Anopheles*.
Malloccoccus sinensis, in China, 212.
malloti, *Rhadinomerus*.
Mallotus japonica, Coccid on, in Japan, 212.
,, *philippinensis*, new weevil bred from, in India, 176.
Man, Diptera producing myiasis in, 239-261; disease of, probably conveyed by *Simulium*, 236-238.
Mandalotus germinatus, in termite nests, 371.
mandersi, *Nacaduba*.
mangiferae, *Coccus*; *Cryptorhynchus*.
Mango, *Euthyrhinus mediatubundus* and termites on, in Australia, 63-66, 371; pests of, in Mauritius, 182, 189.
Mango Leaf-hopper (see *Idiocerus*).
Manioc (*Manihot utilissima*), pests of, in Mauritius, 184.
Mansonioides, subgenus of *Taeniorhynchus*, 291.
marci, *Bibio*.
marginale, *Chrysomyia*.
mariae, *Aedes* (*Ochlerotatus*).
maroccanus, *Culex annulatus* (see *Theobaldia longiareolata*).
maroccanus, *Dociostaurus*.
mashonaensis, *Uranotaenia*.
Mastotermes darwinensis, attacking mango, etc., in Australia, 63, 371.
matteiana, *Proctotarinia*.
maura, *Lynchia*.
mauritii, *Spodoptera*.
mauritanus, *Anopheles*.
mauriti, *Stenopodactonus*.
Mauritius, Coccids in, 213; pests of minor crops in, 181-190.
Mecistocerus, *Rhadinomerus* compared with, 170.
,, *fumosus*, sp. n., on *Pinus longifolia* in India, 168-170.
meditabundus, *Euthyrhinus*.
megacephala, *Chrysomyia*; *Pheidole*.
megalops, *Tabanus* (see *T. tenens*).
Megarhinus brevipalpis, 285.
,, *christophi*, in Palaearctic Region, 285.
,, (*Toxorhynchites*) *gravelyi*, sp. n., in India, 73.
Megarhinus (*Toxorhynchites*) *kempi*, sp. n., in India, 72.
,, (*Toxorhynchites*) *klossi*, sp. n., in Federated Malay States, 72.
,, *leicesteri*, 72.
,, *regius*, 285.
,, *rutilus*, 285.
,, *towadensis*, in Palaearctic Region, 285.
megastoma, *Cuterebra*.
meigenanus, *Aedes* (*Ochlerotatus*) *punctator*.
mella, *Tachina*.
Melons, pests of, in Mauritius, 186.
meridionalis, *Culex*; *Hamitermes*.
meruentis, *Gyrostigma*.
Mesopotamia, Lepidopterous pests in, 477-479; mosquitos in, 264.
mesopotamiae, *Anopheles hyrcanus*.
metalepticus, *Aedes* (see *A. pullatus jugorum*).
Michelia fuscata, Coccids on, in Formosa, 213, 220.
Micraëdes, a subgenus of *Culex*, 328.
Microplitis eusirus, sp. n., parasite of *Achaea janata* in India, 129.
,, *similis*, sp. n., parasite of *Agrotis ypsilon* in India, 129.
,, *spectabilis*, 129.
microptera, *Stegomyia*.
migratoria, *Locusta*.
migratorioides, *Locusta*.
Mimeteomyia hilli (see *Rachisoura filipes*).
mimeticus, *Culex*.
mimulus, *Culex*.
minimus, *Anopheles*.
minor, *Musca* (see *M. pumila*); *Pin-naspis*; *Pternoscirta* (*Pachytylus*).
minuta, *Lyperosia*; *Musca*.
minutus, *Dinoderus*; *Kirkioestrus*.
miscanthi, *Pygalataspis*.
Miscanthus sinensis, new Coccid on, in Formosa, 218.
modestus, *Culex* (*Barraudius*).
molestus, *Culex*.
moluccensis, *Anopheles punctulatus*.
montanus, *Anopheles albotaeniatus*.
morio, *Alcides*.
morsitans, *Theobaldia* (*Culicella*).
Morus alba, Coccids on, in Japan, 211, 213, 219.
Mosquito Larvae, function of caudal tufts of, 91-97; in saline waters, 29-34; destroyed by Tabanid larvae, 22.
,, Larvicides, 32.

- Mosquitos, classification and new species of, 69; breeding-places of, in Britain, 205-209, 427; of Far Eastern ports, 401-409; from the Palaearctic Region, 263-351; keys to, 269, 276, 281, 286, 293-295, 296-299, 317, 324, 329-331; bibliography of Palaearctic, 348; index of specific and varietal names of, 350.
- mucronata*, *Schneideria*.
- multicolor*, *Anopheles* (*Myzomyia*).
- Muraya exotica*, Coccids on, in Japan, 212, 216.

- nephodes*, *Tabanus* (*Atylotus*).

- New Zealand, *Opifex fuscus* in, 73, 74.
newsteadi, *Culicoides*.
nicaensis, *Culex*.
Nigeria, new Simuliids in, 459-463,
nigra, *Saissetia*; *Stomoxys*.
nigricans, *Cuterebra*.
nigricollis, *Cercyonia*; *Gastrophilus*.
nigrina, *Culicada* (see *Aedes sticticus*).
nigritarsis, *Tabanus*.
nigrithorax, *Musca* (see *M. ventrosa*).
nigritulus, *Culex* (see *C. pipiens*).
nigrocincta, *Cuterebra*.
nigropunctata, *Crioceris*.
nigrotectus, *Tabanus* (*Bellardia*).
nipponii, *Aedes vexans*.
Niptus hololeucus, 133.
nivarleti, *Rhinoestrus*.
niveisquama, *Musca* (see *M. humilis*).
niveitaenata, *Theobaldia* (*Pseudotheobaldia*).
niveus, *Aedes* (*Finlaya*); *Culex*.
niveosparsus, *Idiocerus*.
notata, *Scatopse*.
notatus, *Silvius*.
- obovata*, *Aspidomorpha*.
obscurus, *Aedes* (see *A. communis*);
Calotermes.
obsoleta, *Heliothis* (*Chloridea*).
obturbans, *Armigeres*.
obtusa, *Anidia*.
obtusidens, *Hamitermes*.
occidentalis, *Anopheles* (see *A. maculipennis*).
Ochlerotatus, key to Palaearctic species
of, 296-299; subgenus
of *Aedes*, 293, 295; *q.v.*
annulifemur (see *Stegomyia*
periskeleta).
Ocnerygia amanda, bionomics of, on
figs in Mesopotamia, 477.
octoguttalis, *Thliptoceras*.
octoguttatus, *Botys*.
odiatu, *Culicoides*.
odibilis, *Culicoides*.
Odina wodier, new weevil bred from, in
India, 180.
odinae, *Ospilia*.
Odonaspis, *Pygalataspis* resembling, 218.
penicillata, food-plant of,
in Japan, 219.
Oedemagena tarandi, infesting reindeer
in Scandinavia, 248.
Oestrus aureo-argentatus, infesting antelopes
in Africa, 247.
compositus, infesting antelopes
in Africa, 247.
disjunctus, infesting antelopes
in Africa, 247.
interruptus, infesting antelopes
in Africa, 247.
- Oestrus macdonaldi*, infesting antelopes
in Africa, 247.
ovis, infesting sheep, 244, 246;
characters of larva of, 255.
variolus, infesting haartebeeste,
246.
oleae, *Argopistes*; *Saissetia*.
Olives, new Coleopterous pests of, in
South Africa, 474, 475.
Opifex fuscus, considered to be a
Culicine, 73; description of, 73, 74.
Opuntia, extract of, as an adhesive in
insecticides, 185.
orichalcea, *Phytometra*.
Oriental Region, mosquitos from, found
in Palaearctic Region, 264.
orientalis, *Culex*.
ornata, *Aedes* (*Skusea*) *funerea*.
ornatalis, *Ercia*.
Orthopodomyia albionensis (see *O. pulchripalpis*).
pulchripalpis, in Palaearctic
Region, 290.
Oryctes tarandus, bionomics of, on
coconut in Mauritius, 187.
oryzae, *Calandra*.
osakensis, *Culex* (see *C. pipiens*).
Ospilia brevirostris, in Ceylon, 180.
egregia, in Burma, 180.
odinae, sp. n., bred from forest
trees in India, 179.
ovis, *Oestrus*.
Oxya turanica, breeding-places of, in
Transcaspiya, 154.
- pachycera*, *Haematopota*.
Pachytylus (see *Locusta*).
australis, a synonym of
Locusta migratoria ph.
danica, 162.
capito, a synonym of
Locusta migratoria ph. *mi-*
gratorioides, 162.
minor (see *Pternoscirta*).
Palaearctic Region, mosquitos of, 263-
351.
Palaeopsyche, 468.
Palestine, blood-sucking Diptera of,
107-124; mosquitos in, 264.
palestinensis, *Anopheles* (*Pyretophorus*)
(see *A. superpicus*).
pallens, *Culex* (see *C. pipiens*).
pallidothorax, *Culicomyia*.
pallipes, *Culex*.
palmeri, *Aedes* (*Ochlerotatus*) (see *A. communis*).
palmeri, *Simulium*.
paludis, *Anopheles* (see *A. mauritanus*).
panayensis, *Aedes*.
Pandanus seychellarum, *Pinnaspis buxi*
on, in Seychelles, 127.

- papatasii*, *Phlebotomus*.
papaveris, *Aphis* (see *A. rumicis*).
Papilio demodocus, on citrus in Mauritius, 188.
 „ *phorbantia*, on citrus in Mauritius, 188.
paradoxus, *Leucotermes*.
parvus, *Rhadinopus*.
pardalina, *Locustana* (*Locusta*).
Parlatoria pergandei, food-plants of, in Formosa, 214.
 „ *zizyphi*, food-plant of, in Formosa, 214.
partitus, *Tabanus* (see *T. striatus*).
parumspinosus, *Cobboldia*.
parvulus, *Aedes* (*Ochlerotatus*).
parvus, *Hamitermes*.
patagona, *Cuterebra*.
pattoni, *Musca*.
pavesii, *Gyrostigma*.
 Peaches, pests of, in Mauritius, 190.
 Peas (*Pisum sativum*), pests of, in Mauritius, 186.
pecorum, *Gastrophilus*.
Pelamia repanda (see *Remigia*).
pembaensis, *Aedes* (*Skusea*).
pendulus, *Helophilus*.
peneti, *Leptoconops kerteszi*.
penicillata, *Odonaspis*.
pentagona, *Diaspis* (*Aulacaspis*).
percurrans, *Rhogas* (*Heterogamus*).
peregrina, *Schistocerca*.
perexiguus, *Culex*.
pergandei, *Parlatoria*.
periskeleta, *Stegomyia*.
perniger, *Drepanotermes*.
perplexus, *Hamitermes*.
persicus, *Anopheles* (*Myzomyia*) *turk-hudi*.
pfeifferi, *Xanthogramma*.
phacochoeri, *Rhinoestrus*.
pharocensis, *Anopheles* (*Myzomyia*).
phaseoli, *Agromyza*.
Pheidole megacephala, 64.
Phenacaspis eugeniae, food-plant of, in Formosa, 213.
Philaematomyia, characters of larva of, 258; (see *Musca*).
 „ *gurneyi* (see *Musca* (*Philelepis*) *inferior*).
Phlebotomus minutus var. *africanus*, in Palestine, 119.
 „ *papatasii*, 115; in Palestine, 118.
phobifer, *Cephenomyia*.
phorbantia, *Papilio*.
Phormia, characters of larva of, 258.
 „ *regina*, causing myiasis, 250; larva of, 255.
Phragmites communis, locusts breeding amongst, in Transcaspiia, 143, 154.
Phytalus smithi (see *Lachnosterna*).
Phytometra chalcys, food-plants of, in Mauritius, 183.
 „ *orichalcea*, bionomics and control of, on flax in Kenya Colony, 99-102; food-plants of, in Mauritius, 183, 186.
 Phytophaga, new injurious species of, from Africa, 473-475.
picridis, *Macrosiphum*.
pictus, *Anopheles* (see *A. hyrcanus*).
 Pigeons, distribution of *Lynchia maura* on, 122.
 Pigs, Oestrid infesting, in Africa, 247.
pilosa, *Musca* (see *M. bezzi*).
Pinnaspis buxi, food-plants of, in Seychelles, 127.
 „ *minor*, sp. n., food-plants of, in Formosa, 214.
 „ *simplex*, sp. n., in China, 214.
Pinus longifolia, new weevil bred from, in India, 170.
 „ *thunbergii*, Coccid on, in Formosa, 215.
pionips, *Aedes*.
pipiens, *Culex*.
Pipunculus annulifemur, sp. n., parasite of *Idiocerus* in India, 465, 469.
Plasmodium spp., *Leptoconops* not experimentally infected with, 5.
Platyedra gossypiella, on *Cajanus indicus* in Mauritius, 182, 185.
Plecia fulvicollis, 232.
plinthopyga, *Sarcophaga*.
plumbeus, *Anopheles*.
Plusia (see *Phytometra*).
Plutella maculipennis, on cabbage in Mauritius, 186.
Podocarpus chinensis, Coccid on, in Formosa, 215.
Pollenia stygia, causing myiasis, 250; larva of, 253.
pollinosa, *Musca* (see *M. cingalaisina*).
pomonae, *Bibio*.
pomonella, *Cydia*.
pomorum, *Mytilaspis* (see *Lepidosaphes ulmi*).
 Poppy, food-plant of *Aphis rumicis*, 81.
Porpe bjerkanarella, on artichoke in Mauritius, 186.
posticata, *Psorophora*.
 Potassium Bitartrate, beetles apparently feeding on, 133.
 Potato, attacked by Bibionid larvae, 232; food-plant of *Phytometra orichalcea*, 99.
praecox, *Musca* (see *M. humilis*).
praematurus, *Tabanus*.
pratti, *Cephenomyia*.
primitiva, *Musca* (see *M. humilis*).
princeps, *Bogeria*.
priscus, *Tabanus*.

- Pristirhynchomyia lineata* (see *Musca*).
Proceras sacchariphaga, on maize in Mauritius, 184.
Procontarinia matteiana, on mango in Mauritius, 189.
Prodenia litura, food-plants of, in Mauritius, 181, 183, 184, 187.
promisca, *Musca* (see *M. humilis*).
Protomelanonion, 79.
 „ *fuscum*, referred to subgenus *Neoculex*, 79.
Psamma arenaria, new Aphid on, in Britain, 430.
psammae, *Laingia*.
psarophanes, *Silvius* (see *S. notatus*).
Pseudaonidia aldabraca, sp. n., in Seychelles, 125.
 „ *duplex*, food-plant of, in Formosa, 220.
 „ *iota*, sp. n., on *Eugenia caryophyllata* in Seychelles, 125.
 „ *lacinia*, 125.
 „ *tesserata*, 126.
 „ *trilobitiformis*, food-plant of, in Formosa, 220 ; food-plant of, in Mauritius, 188, 189.
Pseudococcinella sexvittata (see *Argopistes*).
Pseudococcus calceolariae, on ground-nuts in Mauritius, 186.
 „ *citri*, food-plant of, in Formosa, 211 ; on citrus in Mauritius, 188.
 „ *comstocki*, food-plant of, in Formosa, 211.
 „ *filamentosus*, food-plant of, in Formosa, 211 ; on citrus in Mauritius, 188.
 „ *vastator* (see *P. filamentosus*).
 „ *virgatus*, food-plant of, in Formosa, 211.
Pseudogametes hermanni, infesting mice in Brazil, 249.
 „ *semiatra*, infesting mice in Brazil, 249.
pseudonigeria, *Aedes* (*Stegomyia*).
pseudopictus, *Anopheles* (see *A. hyrcanus*).
pseudopunctipennis, *Anopheles*.
Psorophora posticata, oviposition of, in Trinidad, 481.
Pternoscirta minor, 162.
Ptilolepis (see *Musca*).
Ptinus tectus, breeding in stored products, 134.
pugiunculus, *Tabanus*.
pugnax, *Tabanus*.
pulcherrimus, *Anopheles* (*Myzomyia*).
pulchripalpis, *Orthopodomys*.
pulchritarsis, *Aedes* (*Ochlerotatus*).
pulicaris, *Culicoides*.
pullatus, *Aedes*.
pumila, *Musca*.
pumilus, *Culicoides*.
 Pumpkins, pests of, in Mauritius, 186.
punctibasis, *Anopheles*.
punctipes, *Aedes* (*Skusea*).
punctor, *Aedes*.
punctulatus, *Anopheles*.
punctum, *Cratopus*.
pungoana, *Musca* (see *M. ventrosa*).
purchasi, *Icerya*.
puripennis, *Culicoides*.
purpurata, *Rachionotomyia*.
purpureus, *Rhinoestrus*.
pusillus, *Culex* (*Barraudius*).
Pycnosoma bezziana (see *Chrysomyia*).
Pygalataspis, gen. nov., 218.
 „ *miscanthi*, sp. n., on *Miscanthus sinensis* in Formosa, 218, 219.
pyophila, *Sarcophaga*.
Pyretophorus (see *Anopheles*).
Pyriloxenos compactus, parasite of *Idiocerus* in India, 465.
Pyroderces simplex, on cotton in Mauritius, 182.
quadrifaculata, *Calliphora*.
quadrifaculatus, *Anopheles*.
quasigelidus, *Culex*.
quasimodestus, *Culex* (see *C. pipiens*).
quasiornata, *Rachionotomyia* (*Stegomyia*).
quatuordecimpunctata, *Crioceris*.
Rachionotomyia aenea, sp. n., in Federated Malay States, 79.
 „ *bambusa*, in Palaearctic Region, 284 ; anatomy of, 284.
 „ *bimaculipes*, 79, 80.
 „ *purpurata*, sp. n., in Fiji, 79, 80.
 „ *quasiornata*, in Australia, 80.
 „ *similis*, 79.
Rachisoura filipes, synonymy of, 79.
 „ *sylvestris* (see *R. filipes*).
radicicola, *Heterodera*.
 Rape, food-plant of *Phytometra orchalcea*, 99.
 Red Scale (see *Chrysomphalus aurantii*).
regina, *Phormia*.
regius, *Megarhinus*.
 Reindeer, Oestrids infesting, 248, 250

- Remigia repanda*, on *Vigna catjang* in Mauritius, 186.
repanda, *Remigia* (*Pelamia*).
Rhadinomerus, compared with *Me-cistocerus*, 170.
 „ *bombacis*, sp. n., in *Bombax malabaricum* in India, 170-172.
 „ *diversipes*, sp. n., bred from forest trees in India, 172-175.
 „ *mallohi*, sp. n., on *Mal-lotus philippinensis* in India, 175.
 „ *subfasciatus*, sp. n., in-festing forest trees in India, 176.
Rhadinopus buteae, sp. n., on *Butea frondosa* in India, 177.
 „ *centriniformis*, 178.
 „ *consputus*, 178.
 „ *parcus*, 178.
Rhinoceros, Oestrids infesting, 245.
Rhinoceros sumatrensis, Tabanid at-tacking, in Malaya, 449.
Rhinoestrus hippopotami, infesting hip-popotamus in Africa, 247.
 „ *nivarleti*, infesting pigs in Africa, 247.
 „ *phacochoeri*, infesting wart hog in Africa, 247.
 „ *purpureus*, causing myia-sis, hosts and distribu-tion of, 247.
Rhinotermes, 363.
Rhodesia, new *Leptoconops* in, 14.
rhodensiensis, *Anopheles* (*Myzomyia*) ; *Leptoconops*.
Rhogas (*Heterogamus*) *percurrens*, sp. n., parasite of *Achaea janata* in India, 131.
Rhopalocampta forestan, on *Canavalia ensiformis* in Mauritius, 185.
rhynchias, *Argyroploce*.
richiardi, *Taeniorhynchus* (*Coquillet-tidia*).
rodhaini, *Cordylobia* (*Stasisia*).
Roe-deer, Oestrid infesting, 250.
Rogenhoferia spp., infesting mice in South America, 249.
Rosa damascena, pests of, in Bulgaria, 353.
rosae, *Aulacaspis*.
Rose, Coccid on, in Formosa, 213 ; attacked by *Agrilus foveicollis* in Bulgaria, 353-354.
rostochiensis, *Aedes* (*Ochlerotatus*) *cata-phylla*.
Rubber, scale-insects on, in Mauritius, 182.
rubens, *Ceroplastes*.
rubicundulus, *Tabanus*.
rubidus, *Tabanus*.
rubriceps, *Drepanotermes*.
rubrolineata, *Fiorinia*.
rubus, *Batocera*.
ruficornis, *Sarcophaga*.
rufifacies, *Chrysomyia* (see *C. albiceps*).
rufinotatus, *Tabanus*.
rufipes, *Aphiochaeta*.
rufiventris, *Cuterebra*.
rufus, *Culex* (see *C. pipiens*).
Rumex, food-plant of *Aphis rumicis*, 87.
rumicis, *Aphis*.
Russia, breeding-places of locusts in, 155.
rusticus, *Aedes* (*Ochlerotatus*).
rutilus, *Megarhinus*.
sacchariphaga, *Proceras* (*Diatraea*).
sacharovii, *Anopheles*.
sagitta, *Gelastorrhinus*.
Saissetia hemisphaerica, food-plant of, in Formosa, 212 ; on citrus and coffee in Kenya Colony, 103 ; food-plants of, in Mauritius, 182, 184, 187, 188.
 „ *nigra*, on citrus and coffee in Kenya Colony, 103 ; food-plants of, in Mauritius, 182, 187.
 „ *oleae*, on citrus in Mauritius, 188.
salina, *Culicada nemorosa* (see *Aedes sticticus*).
Saline Waters, mosquitos breeding in, 29-34.
salinellus, *Aedes* (*Ochlerotatus*).
Salix warburgi, new Coccid on, in Formosa, 216.
salus, *Culex* (see *C. sitiens*).
sanguineus, *Iridomyrmex*.
Sapium sebiferum, new Coccid on, in Formosa, 216.
Sarcophaga, producing myiasis in India, 239 ; characters of lar-vae of, 255, 256, 258, 260 ; larviparous habit of, 261.
 „ *chrysostoma*, causing myia-sis, 250, 251.
 „ *lambens*, causing myiasis in South America, 251.
 „ *plinthopyga*, causing myia-sis, 250, 251.
 „ *pyophila*, causing myiasis in South America, 251.
 „ *ruficornis*, causing myiasis, 250.
sarcophagoides, *Cuterebra*.
scalaris, *Fannia*.

- Scatopse*, parasitised by *Agyrtes bicolor*, 231.
 „ *notata*, 232.
Schistocerca peregrina, 159, note.
Schizoconops (see *Leptoconops*).
schmalzi, *Cuterebra*.
Schneideria mucronata, infesting Bibionid larvae, 231.
scudderii, *Bogeria*.
scutellaris, *Aedes* (*Stegomyia*) (see *A. albopictus*).
Selenaspidus articulatus, on citrus and coffee in Kenya Colony, 103, 104.
selenensis, *Anopheles* (see *A. maculipennis*).
semiata, *Pseudogametes*.
semicantans, *Aedes* (*Ochlerotatus*).
separatus, *Anopheles*.
septentrionalis, *Drepanotermes*.
serenissima, *Lucilia* (see *L. argycephala*).
sergenti, *Anopheles* (*Myzomyia*); *Culex*.
sericata, *Lucilia*.
Sesamia vuteria, bionomics of, on maize in Mauritius, 183.
setigera, *Musca* (see *M. albomaculata*).
sexvittatus, *Argopistes* (*Pseudococcinella*).
seychellarum, *Icerya*.
 Seychelles, Coccidae in, 125-128.
 Shanghai, breeding-places of mosquitos at, 403.
 Sheep, Oestrids infesting, 244, 246.
Shorea robusta, new weevils bred from, in India, 175, 177.
 Siam, new *Leptoconops* in, 20; Tabanids of, 431-455.
siamensis, *Leptoconops*; *Tabanus*.
 Siberia, new mosquito in, 308.
siberiensis, *Culiseta* (see *Theobaldia alaskaensis*).
sicarius, *Tetrastichus*.
Sida, *Chionaspis subcorticalis* on, in Seychelles, 127.
silenus, *Hypoderma*.
silvestrii, *Diversinervus*; *Drepanotermes*.
Silvius fuliginosus (see *S. notatus*).
 „ *notatus*, 55; bionomics of, in Australia, 59-62.
 „ *psarophanes* (see *S. notatus*).
similis, *Haematopota*; *Microplitis*; *Rachionotomyia*.
simplex, *Pinnaspis*; *Pyroderces* (*Anatrachyntis*).
simpsoni, *Culex*.
Simulium, 1.
 „ *alcocki*, sp. n., in Nigeria, 459.
 „ *alcocki* var. *coalitum*, n., in Nigeria, 460.
 „ *alcocki* var. *violaceum*, n., in Nigeria, 460.
Simulium aureosimile, 461.
 „ *beckeri*, in Algeria, 117.
 „ *divergens*, sp. n., in Nigeria, 460.
 „ *equinum*, attacking horses in Palestine, 117.
 „ *flavipes*, sp. n., in Palestine, 116.
 „ *hirsutum*, sp. n., in East Africa, 458, 460.
 „ *hirsutum* var. *adersi*, n., in Zanzibar, 459.
 „ *hirsutum* var. *dubium*, n., in East Africa, 459.
 „ *lineatum* (see *S. maculatum*).
 „ *maculatum*, 4.
 „ *neavei*, 461; possibly carrying human disease in Kenya Colony, 236-238.
 „ *palmeri*, sp. n., in Nigeria, 462.
 „ *unicornutum*, in Nigeria, 462.
 „ *vorax*, sp. n., in East Africa, 461.
sinensis, *Anopheles* (see *A. hyrcanus*); *Culex*; *Malloccoccus*.
sinicus, *Tabanus*.
Sipha, *Laingia* allied to, 429.
sitiens, *Culex*.
smithi, *Lacknosterna* (*Phytalus*).
solani, *Coelonia* (*Sphinx*).
sordidus, *Cosmopolites*.
spathipalpis, *Culex* (see *Theobaldia longiareolata*).
spectabilis, *Microplitis*.
speculifera, *Musca*.
Sphinx convolvuli (see *Herse*).
 „ *solani* (see *Coelonia*).
spinohumera, *Musca*.
spinosa, *Musca*.
spinosifrons, *Acanthoconops*.
spinosipes, *Leptoconops* (see *Acanthoconops albiventris*).
Spodoptera mauritia, food-plants of, in Mauritius, 181, 183.
Stasisia rodhaini (see *Cordylobia*).
Stauropodotonus mauritii, parasite of *Sesamia vuteria* in Mauritius, 184.
Stegomyia, key to Palaearctic species of, 324; a subgenus of *Aedes*, 293, 324; q.v.
 „ *hilli* (see *Rachisoura filipes*).
 „ *quasiornata* (see *Rachionotomyia*).
 „ *microptera*, 77.
 „ *periskeleta*, 77.
stellifera, *Vinsonia*.
stephensi, *Anopheles* (*Myzomyia*).
sticticus, *Aedes* (*Ochlerotatus*).
stimulator, *Cephenomyia*.
Stomoxys, possibly transmitting trypanosomiasis to cattle, 236.

- Stomoxys calcitrans*, attacking cattle in Kenya Colony, 235; in Palestine, 121.
- „ *nigra*, attacking cattle in Kenya Colony, 235.
- „ *varipes*, attacking cattle in Kenya Colony, 235.
- striatecta*, *Musca*.
- striatus*, *Ceratosolen*; *Tabanus*.
- stygia*, *Pollenia*.
- stygius*, *Leptoconops*.
- subcorticalis*, *Chionaspis*.
- subfasciata*, *Rhadinomerus*.
- subochrea*, *Theobaldia*.
- Sudan, new mosquito in, 69.
- Sugar-cane, *Aulacaspis tegalensis* on, in Formosa, 213.
- sugens*, *Aedes* (*Stegomyia*) (see *A. vittatus*).
- sulcicollis*, *Locusta* (see *Locustana pardalina*).
- sumatrensis*, *Gyrostigma*.
- Sunflower, food-plant of *Asterochiton vaporariorum* in Britain, 359.
- superpictus*, *Anopheles* (*Myzomyia*).
- surcoufi*, *Kirkioestrus*.
- susae*, *Culicoides*.
- Sweet Potato (*Ipomoea batatas*), pests of, in Mauritius, 184.
- sygmoïdes*, *Dacus*.
- sylvae*, *Culex nigripes* (see *Aedes sticticus*).
- sylvestris*, *Rachisoura* (see *R. filipes*).
- Sympiezomias beesoni*, sp. n., on teak in India, 165.
- „ *frater*, 166.
- Tabanidae, bionomics of, in Australia, 41–62; new species of, in Siam, 431–455.
- Tabanus*, key to Siamese species of, 433–435.
- „ *albimediis* (see *T. priscus*).
- „ *agnoscibilis*, sp. n., in Siam, 453.
- „ *aprepes*, bionomics of, in Australia, 41–53.
- „ *barnesi*, sp. n., in Siam, 435–437.
- „ *batchelor* (see *T. aprepes*).
- „ *brunnipennis*, in Siam, 444.
- „ *cinerascens*, in Java, 453.
- „ *designatus* (see *T. rufinotatus*).
- „ *elesthem* (see *T. rufinotatus*).
- „ *finalis*, in Siam, 442.
- „ *fulvimediodides*, in Formosa, 451.
- „ *fulvimedius*, in Formosa, 451.
- „ *hilaris* (see *T. tenens*).
- „ *indianus*, distribution of, 444.
- Tabanus insidiator*, sp. n., in Siam, 437–440.
- „ (*Atylotus*) *leucocnematus*, 439–440.
- „ *lineatus* (see *T. rufinotatus*).
- „ *megalops* (see *T. tenens*).
- „ (*Atylotus*) *nephodes*, in Assam, 437.
- „ *nigritarsis*, 43; bionomics of, in Australia, 56–59.
- „ *nigrotectus*, in Siam, 437.
- „ *partitus* (see *T. striatus*).
- „ *praematurus*, sp. n., in Siam, 440–442.
- „ *priscus*, 448.
- „ *pugiunculus*, sp. n., in Siam, 451–453.
- „ *pugnax*, sp. n., in Siam, 449–451.
- „ *rubicundulus*, sp. n., in Siam, 442–444.
- „ *rubidus*, in Siam, 448.
- „ *rufinotatus*, 41, 43; bionomics of, in Australia, 53–56.
- „ *siamensis*, in Siam, 455.
- „ *sinicus*, distinct from *T. striatus*, 446.
- „ *striatus*, distribution of, in Far East, 445.
- „ *taeniola* var. *variatus*, 235.
- „ *tenens*, 445.
- „ *virgulus*, sp. n., in Siam, 446–448.
- Tachardia decorella*, food-plant of, in Formosa, 212.
- Tachina mella*, 4.
- Taeniorhynchus* (*Coquillettidia*) *richiardi*, in Palaearctic Region, 291.
- Taeniorhynchus titillans*, recorded in error from Rumania, 291, note.
- taeniorhynchus*, *Culex*.
- tahoensis*, *Aedes*.
- Tanganyika Territory, new Simuliids from, 458, 461.
- tarandi*, *Oedemagena*.
- tarandus*, *Oryctes*.
- tarsimaculatus*, *Anopheles*.
- Tarucus telicanus*, on *Cajanus indicus* in Mauritius, 185.
- tasmaniensis*, *Aedes* (*Ochlerotatus*); *Lucilia*.
- taylori*, *Culex*.
- Teak, new weevil attacking, in India, 166.
- tectus*, *Ptinus*.
- tegalensis*, *Aulacaspis*.
- Telenomus*, parasite of *Prodenia litura* in Mauritius, 181, 184.
- „ *truncativentris*, parasite of *Antestia lineaticollis* in Kenya Colony, 191–201.
- telicanus*, *Tarucus*.

- tempestiva*, *Musca*.
tenax, *Eristalis*.
tenebrosa, *Cuterebra*.
tenens, *Tabanus*.
tenorius, *Culicoides*.
 Termites, new species of, in Australia, 363-399.
ternicinctus, *Gastrophilus*.
terrae-reginae, *Musca*.
Tersesthes, a synonym of *Leptoconops*, 1, 2, 107.
tessellatus, *Anopheles punctulatus*; *Eucalymnatus*.
tesserata, *Pseudaonidia*.
Tetrastichus sicarius, parasite of *Coccus viridis* in Mauritius, 188.
thalassius, *Culex*.
Thaumasura curculionis, parasite of *Euthyrrhinus meditabundus* in Queensland, 65.
Thea sinensis, Coccid on, in Formosa, 214.
theobaldi, *Anopheles*.
Theobaldia, key to Palaearctic species of, 286.
 „ *alaskaensis*, in Palaearctic Region, 288.
 „ *annulata*, in Britain, 208, 427; in Palaearctic Region, 288; anatomy of, 266, 292.
 „ *arctica* (see *T. alaskaensis*).
 „ *bergrothi* (see *T. glaphyrop-ter*).
 „ *dyari*, 289.
 „ (*Culicella*) *fumipennis*, influence of drought on, in British Isles, 207; in Palaearctic Region, 290; anatomy of, 292.
 „ (*Theobaldia*) *glaphyrop-ter*, in Palaearctic Region, 287.
 „ (*Allotheobaldia*) *longi-areolata*, in Palaearctic Region, 287; venation of, 285.
 „ (*Culicella*) *morsitans*, influence of drought on, in British Isles, 205, 207; in Palaearctic Region, 289.
 „ (*Pseudotheobaldia*) *nivei-taeniata*, distinct from *T. glaphyrop-ter*, 287.
 „ (*Theobaldia*) *subochrea*, in Palaearctic Region, 289.
Theretra alecto, bionomics of, on grape vines in Mesopotamia, 478.
Thliptoceras octoguttalis, *Botys octoguttatus* possibly recorded as, on coffee in Mauritius, 187.
thoracicus, *Culex*.
 Thrips, food-plants of, in Mauritius, 183, 185.
Thripsaphis, *Laingia* resembling, 429.
tiberiadis, *Trichotanypus*.
tigripes, *Lutzia*.
tipuliformis, *Culex*.
titillans, *Taeniorhynchus*.
titillator, *Cephalopsis*.
 Tobacco, food-plant of *Asterochiton vaporariorum* in Britain, 359; pests of, in Mauritius, 182.
togoi, *Aedes* (*Finlaya*).
 Tomato, *Asterochiton vaporariorum* on, in Britain, 355-359; pests of, in Mauritius, 186; *Chionaspis sub-corticalis* on, in Seychelles, 127.
torrens, *Leptoconops*.
towadensis, *Megarhinus*.
Toxoplasma, 5.
 Transcaspia, breeding-places of locusts in, 143-154.
Trichogramma australicum, parasite of *Sesamia viutera* in Mauritius, 184.
Trichonympha, in termites, 371.
Trichoptilus wahlbergi, on sweet potato in Mauritius, 184.
Trichotanypus tiberiadis, recorded in error as a blood-sucker in Palestine, 115.
triflatus, *Culex*.
trigonocephala, *Rogenhofer*.
Trigonogenius globulum, breeding in argol, 133.
trilobitiformis, *Pseudaonidia*.
 Trinidad, oviposition of *Psorophora posticata* in, 481.
Trioza, on citrus in Kenya Colony, 103; on citrus in Mauritius, 188.
tritaeiorhynchus, *Culex*.
trompe, *Cephenomyia*.
Trulliflorinia, 216.
truncativentris, *Telenomus*.
Trypanosoma uniforme, in cattle in Kenya Colony, 233.
 Trypanosomiasis, in the absence of *Glossina* in Kenya Colony, 233-236.
tubulorum, *Lepidosaphes*.
turanica, *Oxya*.
turkhudi, *Anopheles*.
tyriei, *Eutermes*.
ugandae, *Haematopota*.
ulmi, *Lepidosaphes*.
ulrichi, *Cephenomyia*.
umbrosus, *Anopheles*.
unguiculata, *Uranotaenia*.
unicornutum, *Simulium*.
uniforme, *Trypanosoma*.
univittatus, *Culex*.

- Uranotaenia bimaculata*, in Palae-arctic Region, 283.
 „ *mashonaensis*, 283.
 „ *ungiculata*, in Palae-arctic Region, 283.
- vagus*, *Anopheles*.
validicornis, *Haematopota* (see *H. pachycera*).
validus, *Leucotermes*.
vaporariorum, *Asterochiton* (*Aleurodes*).
variatus, *Tabanus taeniola*.
variegatum, *Amblyomma*.
varioannulatus, *Culex* (see *C. pipiens*).
variolus, *Oestrus*.
varipes, *Chrysomyia*; *Stomoxys*.
vassilievi, *Anopheles superpictus*.
vastator, *Pseudococcus* (see *P. filamentosus*).
vastatrix, *Hemileia*.
Vegetable Marrow, food-plant of *Asterochiton vaporariorum* in Britain, 359.
venosus, *Bibio*.
ventralis, *Armigeres*.
ventrillonii, *Culex*.
ventrosa, *Musca*.
Verschaffeltia splendida, new scale on, in Seychelles, 127.
versutus, *Adoretus*.
verticillata, *Eupristina*.
veterinus, *Gastrophilus*.
vetustissima, *Musca* (see *M. pumila*).
vexans, *Aedes* (*Ecculex*).
Viburnum opulus, food-plant of *Aphis rumicis*, 86, 87.
vicaria, *Musca* (see *M. domestica*).
victoriensis, *Hamitermes perplexus*.
Vigna catjang, pests of, in Mauritius, 186.
Vine, Grape, Lepidopterous pests of, in Mesopotamia, 478, 479.
Vinsonia stellifera, on mango in Mauritius, 189.
violaceum, *Simulium alcocki*.
virgatipes, *Culex*.
virgatus, *Pseudococcus*.
virgulatus, *Tabanus*.
viridis, *Agrilus*; *Coccus*; *Culex*.
viridissima, *Crioceris*.
viridula, *Cochliomyia*.
vishnui, *Culex*.
vitreipennis, *Culicoides*.
vitripennis, *Musca*.
vittatus, *Aedes* (*Stegomyia*).
vivax, *Plasmodium*.
vomitaria, *Calliphora*.
vorax, *Lutzia*; *Simulium*.
vulgaris, *Culex*.
vuteria, *Sesamia*.
wahlbergi, *Trichoptilus*.
Wart Hog, Oestrid infesting, in Africa, 247.
waterhousei, *Aedes* (*Ochlerotatus*) (see *A. maculatus*).
Weevils, new, in India, 165-180.
willmori, *Anopheles* (see *A. maculatus*).
Willow, new Coccid on, in Japan, 216.
Wohlfahrtia, larviparous habit of, 261.
„ *magnifica*, causing myiasis, 241, 243; larva of, 260.
xanthina, *Aphiochaeta*.
xanthindyma, *Cosmophila* (see *C. flava*).
Xanthogramma pfeifferi, predacious on *Aphis brassicae* in Mauritius, 186.
xanthomela, *Musca*.
Yokohama, breeding-places of mosquitos at, 407.
ypsilon, *Agrotis*.
zammittii, *Aedes* (*Ochlerotatus*).
Zanzibar, new *Leptoconops* in, 24; new *Simulium* in, 459.
Zebra, Oestrids infesting, 245.
zebrae, *Gastrophilus pecorum*.
Zizera lysimon, on *Cajanus indicus* in Mauritius, 185.
zizyphi, *Parlatoria*.

INDEX TO NAMES OF PERSONS.

- Abildgaard, Prof. P. C., 416.
Adams, J. J., 103.
Adelung, Dr. N., 141, 288.
Aders, Dr. W. M., 26, 242.
Ahnger, C., 273, 275, 279, 287, 288, 300, 323, 336.
Alcock, Lt.-Col. A., 79, 94, 120, 281.
Aldrich, Dr. J. M., 2, 4, 15, 17, 23.
Alluaud, 316.
Anderson, T. J., 99, 191, 195, 233, 473.
Annandale, Dr. N., 20, 115, 119, 120, note, 121, 287, 279, 345, 432, 453.
Artsimovicz, V., 135.
Ashworth, Dr. J. H., 76.
Aurivillius, Prof. C., 306.
Austen, Major E. E., 107-124, 263, 271, 333, 339, 342, 345, 411, 412, 413, 415, 416, 417, 418, 420, 421, 431-455.
Averill, Capt. W. W., 122.
Awati, 416, 418, 420, 421, 422.

Bacot, A., 74.
Bahr, Dr. P. H., 79.
Baini Prashad, Dr., 423.
Balfour, Dr. A., 29-34.
Bancroft, Dr. T. L., 75, 425.
Banks, 253, 254, 284, 325, 327.
Barber, H. S., 17, 23.
Barnes, Dr. M. E., 431, 432, 437, 441, 442, 449, 451, 453, 455.
Barraud, Capt. P. J., 116, 263, 271, 273, 277, 279, 280, 289, 300, 303, 304, 323, 325, 333, 334, 339, 340, 342, 343, 344, 345.
Barrow, 328.
Bartko, 300, 302.
Bate, Miss, 338.
Baume, Dr. la, 151, 152.
Bedford, 340.
Beeson, C. F. C., 166, 170, 172, 175, 176, 177, 178, 180.
Bell-Marley, H., 475.
Bengtsson, Dr., 320.
Bennett, Major, 77.
